## **8. Licensing Policy**

The Sub-Committee took account of the Council's licensing policy, particularly sections 5 and 19.

## **9. Licensing Objectives**

### **9.1 Prevention of crime and disorder**

The evidence provided was such that this licensing objective could be breached and that some action was needed to prevent crime and disorder.

### **9.2 Public Safety**

It was not necessary to consider this objective in the context of interim steps pending a summary review.

### **9.3 Prevention of Nuisance**

It was not necessary to consider this objective in the context of interim steps pending a summary review.

### **9.4 Protection of Children from Harm**

It was not necessary to consider this objective in the context of interim steps pending a summary review.

## **10. Decision**

The Sub-Committee considered the evidence given by the Police, and the information provided by and on behalf of the Premises Licence Holder and decided to suspend the premises licence with immediate effect.

## **11. Evidence and Reasons**

11.1 Section 21 of The Violent Crime Reduction Act 2006 made amendments to the Licensing Act 2003 ("the Act") by introducing the provision for a summary review of a premises licence. This added sections 53A, 53B and 53C to the Act in respect of summary reviews.

11.2 Section 53A provides that the Chief Officer of Police may apply for an urgent review of a premises licence where the same covers the sale of alcohol and where it is considered the premises are associated with serious crime and or disorder.

- 11.3 An application and the supporting certificate required under and by s53A of the Act was received from the Chief Officer of Police by the Licensing Authority on Monday 17 December 2012. Copies of the application were supplied to the premises licence holder and responsible authorities.
- 11.4 In advance of the summary review being determined in accordance with the provisions of section 53C, the Licensing Authority must under section 53B consider whether it is necessary to take interim steps in respect of the licence. This Sub-Committee, with the authority to consider the application, was therefore convened to consider whether any interim steps were necessary pending determination of the summary review application. The interim steps that must be considered are set out at section 53B(3) as:-
- a. Modification of the conditions of the premises licence.
  - b. Exclusion of the sale of alcohol by retail from the scope of the licence.
  - c. Removal of the Designated Premises Supervisor from the licence.
  - d. Suspension of the Licence.
- 11.5 The evidence submitted by Durham Constabulary was that, on a number of occasions in the last six months, controlled drugs (cocaine) had been sold by members of staff to patrons within the premises. They submitted that the staff were acting as a group of dealers in the premises, rather than of their own accord. On 14 December 2012 a magistrates warrant was executed at the premises, with officers entering the premises and conducting a search of the premises and the persons within the premises. The Designated Premises Supervisor (DPS) and three other members of staff were arrested on suspicion of being concerned in the supply of controlled drugs (cocaine). Cocaine was found on each of those arrested. Two members of staff were released with no further action taken, two dancers accepted a caution in relation to the possession of cocaine whilst the DPS and the House Mother were released on Police bail pending further enquiries.
- 11.6 Sergeant Robson confirmed that empty plastic bags had been found in the dancers changing room, and preliminary swab tests indicated that they had contained cocaine. Similar swab tests of the surfaces in the changing room indicated the presence of cocaine in the changing rooms. The House Mother had a number of bags of cocaine upon her when she was arrested. Photographs of the bags containing cocaine, surfaces and swabs were circulated to the Sub-Committee and those representing the Premise Licence Holder.
- 11.7 He asserted that the possession and supply of controlled substances was a serious crime that warranted the use of the summary review process and requested that the Sub-Committee suspend the premises licence pending the hearing of the summary review. Sergeant Robson also stated that he had other intelligence information that he wished to share with the Sub-Committee, however as this was linked to an ongoing active investigation, he requested that, in accordance with section 14(2) of the Licensing Act 2003 (Hearings) Regulations 2005, the public (including parties to the hearing and their representatives) be excluded from the hearing.
- 11.8 Ms Smith, on behalf of the Premises Licence Holder, submitted that there had been no charges in relation to the supply of drugs from the premises, only possession and that, whilst that was serious, the dancers and the House Mother were not employees of the Premises Licence Holder. She explained that the dancers paid the Premises Licence Holder a flat fee to dance at the

premises, together with a percentage of their earnings. The House Mother also paid the Premises Licence Holder for the opportunity to manage the dancers, as well as taking a commission from the dancers. Ms Smith acknowledged that the dancers and the House Mother attended the premises with the consent of the Premises Licence Holder. However, she objected to her client being excluded from any part of the proceedings.

- 11.9 Having withdrawn to consider the request from Durham Constabulary to exclude the public from the hearing in order that they may provide further information, the Sub-Committee concluded that it was not in the public interest for the hearing to proceed without all parties being in attendance, given that the Premises Licence Holder had no right of appeal against any decision that they may take. Accordingly, the hearing would continue in public.
- 11.10 Ms Smith then made representations on behalf of the Premises Licence Holder, stating that the company had been in existence for in excess of 35 years in respect of fish and chip shops, and had been involved in running licenced premises since 2004. She believed that the company was well respected and in November 2012 two of the company's four licenced premises had been adjudged a winner and a runner up in the Best Bar None scheme. The company had extensive management arrangements and policies in place for all premises and Mr Gill was shocked and horrified at the events of the weekend, having had no previous indication of any wrongdoing at any of the company premises. The events of the weekend had had a substantial impact on him in terms of the business and his family. The regional manager was also unaware of any issues within any premises.
- 11.11 It was unfortunate that the Police had not contacted either Mr Gill or the area manager of the premises if they had concerns as to the management of the premises or activities taking place within the same. Had they been aware of any concerns, they would immediately have acted to deal with the same. They had voluntarily closed another premises in response to police action and had taken immediate steps to remove the DPS, although they were bound by employment law considerations in terms of investigating his activities. The company have invoked an immediate review of all management arrangements for all premises and had met with their door staff provider.
- 11.12 Ms Smith submitted that in respect of the police decision to invoke the summary review procedure, as set out at paragraph 2.4 of the Section 53 Summary Review Guidance, the premises had a previously unblemished record and the licence holder had not been made aware of any problems. Further, the fact that two people had been issued with cautions was not indicative of serious offences being committed such that the normal review process would be inappropriate. She was also of the opinion that interim steps would not add value in this situation as the Premises Licence Holder had already applied to vary the DPS, who had been suspended, and the Premises Licence Holder had no intention of allowing dancers onto the premises until such time as they had reviewed their management arrangements. All of those arrested had been barred from the premises. She did not consider that the police had addressed why other powers were not appropriate, and that there was insufficient evidence of serious crime.
- 11.13 It was accepted by the Premises Licence Holder that, with the benefit of hindsight, there was insufficient control and oversight in respect of the dancers and other employees – the focus of management had been towards customers. However, in her opinion, no interim steps were necessary or appropriate given the prompt actions of the Premises Licence Holder.

- 11.14 If the premises licence was suspended, the licence holder would have no option but to lay off six members of staff who were reliant on their jobs for income at Christmas. Ms Smith submitted that it would be possible to deal with the premises by requiring the removal of the DPS and modifying the conditions of the licence to require Mr Gill to be DPS and in attendance at the premises when it was open and for there to be no performance of dance or sexual entertainment pending the conclusion of the review.
- 11.15 In response to questions from the Sub-Committee, it was confirmed by Mr Gill that the premises had been managed by the DPS, there had been no records of checks done on premises for the presence of drugs but he had now held a meeting with all employees to deal with these issues. There would be a full review of all management policies and procedures with a view to dealing with these issues, as well as reviewing the arrangements for the door staff.
- 11.16 Mr Dixon confirmed the female door staff would only be supplied at the specific request of the client, but that in any event, when his door staff attended the premises, the dancers and other staff were already at the premises.
- 11.17 Sergeant Robson then summed up on behalf of Durham Constabulary, expressing disappointment that he had been prevented from supplying information privately to the Sub-Committee which would be of assistance to them. He stated that empty bags had also been found in a cistern in the male toilets (though he had not presented this evidence in the body of his submission as the bags were contaminated). He confirmed that the Police had made representations about the premises at previous applications for Temporary Event Notices and when the premises applied for the Sexual Entertainment Venue licence. The premises had not been without problems. Drugs offences were serious in his opinion and he reiterated his request that the premises licence be suspended pending the hearing of the summary review.
- 11.18 Ms Smith then summed up for the Premises Licence Holder, stating that it was unacceptable for any drugs to have been found on the premises, and that this was contrary to the policies in place within the premises. She accepted that there was a failing in relation to policies in relation to employees however there had been no previous indication of concerns over the premises, which had achieved the Best Bar None awards only six weeks earlier. At no stage had concerns been raised about their policies or how they were implemented. Whenever any issues had been raised, such as two years ago, steps had been taken to address those concerns, such as changing the door company used. The premises licence holder had acted quickly to deal with the issues revealed at the weekend in respect of the DPS and the dancers. No further interim steps were necessary or proportionate given the previous track record and actions of the premises licence holder.
- 11.19 Having withdrawn to consider whether any interim steps were necessary in accordance with section 53B of the Act, the Sub-Committee provided their decision to the Applicant and the Premises Licence Holder, stating that, having carefully considered all of the information presented to them, and being conscious of the need to consider whether any interim steps were necessary for the promotion of the Licensing Objectives, they did not consider that it was appropriate to take no action. The Sub-Committee noted that the DPS who had been found in possession of a controlled substance at the premises on 14 December 2012 had already been suspended by the Premises Licence Holder, however the removal of the DPS would not allay

their concerns in respect of the premises. The alleged criminal activities were not connected with the sale of alcohol and therefore it was not appropriate to remove the sale of alcohol by retail from the licence.

11.20 The most appropriate interim steps open to the Sub-Committee were the modification of the conditions of the premises licence or the suspension of the licence.

11.21 Given the acceptance by the Premises Licence Holder of systemic failings in the management of the premises, the Sub-Committee did not consider that any modification could be made to the conditions attached to the premises licence to deal with their concerns as to crime within the premises. There was uncontested evidence of drugs being sold to patrons within the premises over a period of time. The supply of drugs could attract a maximum sentence of life imprisonment, while the offence of possession of a Class A drug could attract a maximum sentence of seven years. Accordingly, the criminal activity which had taken place within the premises was serious. In these circumstances, the Sub-Committee considered it both necessary and appropriate to suspend the premises licence pending the conclusion of the summary review, which had to take place by 14 January 2013.

**APPENDIX 5**  
**Statement of Licensing Policy**

## 5.0 The Prevention of Crime and Disorder

5.1 Licensed premises, especially those offering late night / early morning entertainment, alcohol and refreshment may sometimes, if not properly managed, become a source of public nuisance, generating crime and disorder problems.

5.2 As a matter of Policy the Licensing Authority will require every holder of a Licence, Certificate or Permission to be responsible for minimising the impact of crime, disorder and anti-social behaviour by their patrons both on and within the vicinity of their premises, including for example on the pavement, in a beer garden or in a smoking shelter. The Licensing Authority suggests that applicants demonstrate in their Operating Schedules that suitable and sufficient measures, ranging from the design and layout of the premises through to the daily operation of the business have been identified and will be implemented and maintained with the intention of preventing crime and disorder. Procedures to deal with drunken customers, violence and anti social behaviour in and outside premises and the provision of closed circuit television in certain premises must be considered by applicants and licencees when addressing this issue. The Licensing Authority will also expect that Personal Licence holders will actively participate in established "Pubwatch" schemes where issues relating to crime and disorder can be addressed. The Licensing Authority support involvement in "Best Bar None" initiative which enables premises to demonstrate good safe operating procedures.

5.3 The Licensing Authority considers the effective and responsible management of the premises through competent and efficient and regular instruction, recorded training, supervision of staff and the adoption of good practice, such as 'Challenge 25', to be among the most important control measures for the achievement of all Licensing Objectives. The Licensing Authority will take a positive view of anyone who invests in appropriate training, and in particular nationally accredited qualifications tailored to the Licensing sector. Training records should be kept available for inspection by all enforcement agencies.

5.4 The application for premises selling alcohol must identify a Designated Premises Supervisor (DPS) who must also hold a Personal Licence. The DPS does not have to be present on the premises at all times when alcohol is being sold. However, the DPS and Premises Licence Holder remain responsible for the premises at all times. It is important that there is an accountable, responsible person present when alcohol is being sold or supplied to ensure, for example, that alcohol is not sold to persons who have had too much to drink, or to those under the age of 18 years, and so that the Licensing Authority and Police can discuss any problems or issues arising from the licensable activities offered on the premises. The Licensing Authority considers it to be good practice if the DPS or Premises Licence Holder is present in the licensed area of the premises:

- Between 22:00 hours and closing time, when the premises is one that regularly opens after midnight for both regulated entertainment and the sale or supply of alcohol for consumption on the premises.
- At all times when the premises is a "vertical drinking establishment" where little or no seating is provided.
- At times where there is a substantial increase in customers i.e. for televised major sporting events etc.

5.5 The Licensing Authority will only impose a maximum number of people that can attend a premises or an event where there is a clear and justifiable need in respect of that particular premises or event, any such decision will be based on the nature and style of the operation. The Licensing Authority will consider information provided by the applicant and any other body, in particular the Council's Building Control Section, Environmental Health Section and the Durham and Darlington Fire and Rescue Service before setting a maximum number. Applicants will be expected to detail the arrangements that would be put in place e.g. provision of door staff to ensure that the permitted number of people attending the premises or event will not be exceeded.

5.6 Whenever security operatives/door supervisors are employed at licensed premises to carry out security functions they must be licensed by the Security Industry Authority (SIA). If a licensee directly employs security operatives they will need to be licensed by the SIA as a supervisor/manager.

5.7 The numbers of licensed door supervisors, both male and female, required at any premises will be dependant upon the nature of the activities licensed and the characteristics and capacity of the establishment and hours of trading.

5.8 In addition to the requirement of the Licensing Authority to promote the Licensing Objectives, the Council also has a duty under Section 17 of the Crime and Disorder Act 1998 to do all it reasonably can to prevent crime and disorder in its area and to consider crime and disorder in its decision making process.

#### ***Cumulative impact of Licences on the amenity of particular areas***

5.9 The Licensing Authority recognises that the cumulative effect of the number, type and density of premises selling alcohol for consumption on the premises in a given area may cause serious problems of nuisance and disorder outside or some distance from licensed premises.

5.10 Where there is evidence that such a problem exists, the Licensing Authority may decide it is no longer appropriate for any further Licensed premises to be established or variations to existing licences to be made in the area and that a Policy relating to cumulative impact should be adopted.

5.11 The effect of a Cumulative Impact Policy would be that applications for new Premises Licences or Club Premises Certificates would normally be refused if relevant representations to that effect are received, unless it can be demonstrated that the operation of the premises involved would not add to the cumulative impact already being experienced.

5.12 Applicants would need to address the Cumulative Impact Policy issues in their Operating Schedules.

5.13 If such a policy is to be considered the following process is followed:

- Concerns relating to crime and disorder or public nuisance must be identified
- Consideration must be given as to whether it can be evidenced that incidents of crime and disorder and nuisance are arising from and caused by the customers of licensed premises. If so, identify the area from which problems are arising or whether risk factors are such that the area is reaching a point when a cumulative impact is imminent
- Consultation must take place with the prescribed statutory consultees on the content of the policy.
- Any special policy will be published as part of the statement of licensing policy
- Any policy must stress that the presumption against grant does not relieve responsible authorities or interested parties of the need to make a relevant representation before the Licensing Authority may lawfully consider giving effect to its special policy. Therefore: if no relevant representation is received, the application must be granted.
- The Licensing Authority must regularly review any special saturation policies to see whether they are still needed or should be expanded

5.14 The absence of a Cumulative Impact Policy does not prevent any responsible authority or interested party making representations on a new application for the grant or variation of a Licence on the grounds that the premises will give rise to a negative or adverse cumulative impact on one or more of the Licensing Objectives.

5.15 The absence of a Cumulative Impact Policy does not prevent any responsible authority or interested party making representations on a new application for the grant or variation of a Licence on the grounds that the premises will give rise to a negative or adverse cumulative impact on one or more of the Licensing Objectives.

5.16 There is a significant difference between commercial need and the cumulative impact of premises within an area and It cannot be taken into account when considering an application.

5.17 A special policy will not impose quotas on either the number of premises or the capacity of those premises nor will it restrict the consideration of any application on its individual merits.

5.18 Applicants are advised to seek advice from the Durham Constabulary and incorporate any recommendations in their Operating Schedule before submitting their applications.

**APPENDIX 6**  
**Section 182 Guidance**

## CRIME AND DISORDER

- 2.1 **Licensing authorities should look to the police as the main source of advice on crime and disorder.** They should also seek to involve the local Community Safety Partnership (CSP).
- 2.2 **In the exercise of their functions, licensing authorities should seek to co-operate with the Security Industry Authority ("SIA") as far as possible** and consider adding relevant conditions to licences where appropriate. The SIA also plays an important role in preventing crime and disorder by ensuring that door supervisors are properly licensed and, in partnership with police and other agencies, that security companies are not being used as fronts for serious and organised criminal activity. This may include making specific enquiries or visiting premises through intelligence led operations in conjunction with the police, local authorities and other partner agencies. Similarly, the provision of requirements for door supervision may be appropriate to ensure that people who are drunk, drug dealers or people carrying firearms do not enter the premises and ensuring that the police are kept informed.
- 2.3 **Conditions should be targeted on deterrence and preventing crime and disorder.** For example, where there is good reason to suppose that disorder may take place, the presence of closed-circuit television (CCTV) cameras both inside and immediately outside the premises can actively deter disorder, nuisance, anti-social behaviour and crime generally. Some licence holders may wish to have cameras on their premises for the prevention of crime directed against the business itself, its staff, or its customers. But any condition may require a broader approach, and it may be appropriate to ensure that the precise location of cameras is set out on plans to ensure that certain areas are properly covered and there is no subsequent dispute over the terms of the condition.
- 2.4 **The inclusion of radio links and ring-round phone systems should be considered an appropriate condition for public houses, bars and nightclubs operating in city and town centre leisure areas** with a high density of licensed premises. These systems allow managers of licensed premises to communicate instantly with the police and facilitate a rapid response to any disorder which may be endangering the customers and staff on the premises.
- 2.5 In the context of crime and disorder and public safety, the preservation of order on premises may give rise to genuine concerns about the ability of the management team with responsibility for the maintenance of order. This may occur, for example, on premises where there are very large numbers of people and alcohol is supplied for consumption, or in premises where there are public order problems.

2.6 **Conditions relating to the management competency of designated premises supervisors should not normally be attached to premises licences.** The designated premises supervisor is the key person who will usually be responsible for the day to day management of the premises by the premises licence holder, including the prevention of disorder. A condition of this kind may only be justified as appropriate in rare circumstances where it can be demonstrated that, in the circumstances associated with particular premises, poor management competency could give rise to issues of crime and disorder and public safety.

2.7 **It will normally be the responsibility of the premises licence holder as an employer, and not the licensing authority, to ensure that the managers appointed at the premises are competent** and appropriately trained. However, licensing authorities must ensure that they do not stray outside their powers and duties under the 2003 Act. This is important to ensure the portability of the personal licence and the offences set out in the 2003 Act and to ensure, for example, that the prevention of disorder is in sharp focus for all managers, licence holders and clubs.

## THE REVIEW PROCESS

11.1 The proceedings set out in the 2003 Act for reviewing premises licences and club premises certificates represent a key protection for the community where problems associated with the licensing objectives occur after the grant or variation of a premises licence or club premises certificate.

11.2 At any stage, following the grant of a premises licence or club premises certificate, a responsible authority, or any other person, may ask the licensing authority to review the licence or certificate because of a matter arising at the premises in connection with any of the four licensing objectives.

11.3 An application for review may be made electronically, provided the licensing authority agrees and the applicant submits a subsequent written application. The licensing authority may also agree in advance that the application need not be given in writing. However, these applications are outside the formal electronic application process and may not be submitted via GOV.UK or the licensing authority's electronic facility.

11.4 In addition, the licensing authority must review a licence if the premises to which it relates was made the subject of a closure order by the police based on nuisance or disorder and the magistrates' court has sent the authority the relevant notice of its determination, or if the police have made an application for summary review on the basis that premises are associated with serious crime and/or disorder.

- 11.5 Any responsible authority under the 2003 Act may apply for a review of a premises licence or club premises certificate. Therefore, the relevant licensing authority may apply for a review if it is concerned about licensed activities at premises and wants to intervene early without waiting for representations from other persons. However, it is not expected that licensing authorities should normally act as responsible authorities in applying for reviews on behalf of other persons, such as local residents or community groups. These individuals or groups are entitled to apply for a review for a licence or certificate in their own right if they have grounds to do so. It is also reasonable for licensing authorities to expect other responsible authorities to intervene where the basis for the intervention falls within the remit of that other authority. For example, the police should take appropriate steps where the basis for the review is concern about crime and disorder. Likewise, where there are concerns about noise nuisance, it is reasonable to expect the local authority exercising environmental health functions for the area in which the premises are situated to make the application for review.
- 11.6 Where the relevant licensing authority does act as a responsible authority and applies for a review, it is important that a separation of responsibilities is still achieved in this process to ensure procedural fairness and eliminate conflicts of interest. As outlined previously in Chapter 9 of this Guidance, the distinct functions of acting as licensing authority and responsible authority should be exercised by different officials to ensure a separation of responsibilities. Further information on how licensing authorities should achieve this separation of responsibilities can be found in Chapter 9, paragraphs 9.13 to 9.19 of this Guidance.
- 11.7 In every case, any application for a review must relate to particular premises in respect of which there is a premises licence or club premises certificate and must be relevant to the promotion of one or more of the licensing objectives. Following the grant or variation of a licence or certificate, a complaint regarding a general issue in the local area relating to the licensing objectives, such as a general (crime and disorder) situation in a town centre, should generally not be regarded as a relevant representation unless it can be positively tied or linked by a causal connection to particular premises, which would allow for a proper review of the licence or certificate. For instance, a geographic cluster of complaints, including along transport routes related to an individual public house and its closing time, could give grounds for a review of an existing licence as well as direct incidents of crime and disorder around a particular public house.
- 11.8 Where a licensing authority receives a geographic cluster of complaints, the authority may consider whether these issues are the result of the cumulative impact of licensed premises within the area concerned. In such circumstances, the authority may also consider whether it would be appropriate to include a special policy relating to cumulative impact

within its licensing policy statement. Further guidance on cumulative impact policies can be found in Chapter 13 of this Guidance.

11.9 Representations must be made in writing and may be amplified at the subsequent hearing or may stand in their own right. Additional representations which do not amount to an amplification of the original representation may not be made at the hearing. Representations may be made electronically, provided the licensing authority agrees and the applicant submits a subsequent written representation. The licensing authority may also agree in advance that the representation need not be given in writing.

11.10 Where authorised persons and responsible authorities have concerns about problems identified at premises, it is good practice for them to give licence holders early warning of their concerns and the need for improvement, and where possible they should advise the licence or certificate holder of the steps they need to take to address those concerns. A failure by the holder to respond to such warnings is expected to lead to a decision to apply for a review. Co-operation at a local level in promoting the licensing objectives should be encouraged and reviews should not be used to undermine this co-operation.

11.11 If the application for a review has been made by a person other than a responsible authority (for example, a local resident, residents' association, local business or trade association), before taking action the licensing authority must first consider whether the complaint being made is relevant, frivolous, vexatious or repetitious. Further guidance on determining whether a representation is frivolous or vexatious can be found in Chapter 9 of this Guidance (paragraphs 9.4 to 9.10).

## **REPETITIOUS GROUNDS OF REVIEW**

11.12 A repetitious ground is one that is identical or substantially similar to:

- a ground for review specified in an earlier application for review made in relation to the same premises licence or certificate which has already been determined; or
- representations considered by the licensing authority when the premises licence or certificate was granted; or
- representations which would have been made when the application for the premises licence was first made and which were excluded then by reason of the prior issue of a provisional statement; and, in addition to the above grounds, a reasonable interval has not elapsed since that earlier review or grant.

11.13 Licensing authorities are expected to be aware of the need to prevent attempts to review licences merely as a further means of challenging the grant of the licence following the failure of representations to persuade the licensing authority on an earlier occasion. It is for licensing authorities themselves to judge what should be regarded as a reasonable interval in these circumstances. However, it is recommended

that more than one review originating from a person other than a responsible authority in relation to a particular premises should not be permitted within a 12 month period on similar grounds save in compelling circumstances or where it arises following a closure order.

11.14 The exclusion of a complaint on the grounds that it is repetitious does not apply to responsible authorities which may make more than one application for a review of a licence or certificate within a 12 month period.

11.15 When a licensing authority receives an application for a review from a responsible authority or any other person, or in accordance with the closure procedures described in Part 8 of the 2003 Act (for example, closure orders), it must arrange a hearing. The arrangements for the hearing must follow the provisions set out in regulations. These regulations are published on the Government's legislation website ([www.legislation.gov.uk](http://www.legislation.gov.uk)). It is particularly important that the premises licence holder is made fully aware of any representations made in respect of the premises, any evidence supporting the representations and that the holder or the holder's legal representative has therefore been able to prepare a response.

#### **POWERS OF A LICENSING AUTHORITY ON THE DETERMINATION OF A REVIEW**

11.16 The 2003 Act provides a range of powers for the licensing authority which it may exercise on determining a review where it considers them appropriate for the promotion of the licensing objectives.

11.17 The licensing authority may decide that the review does not require it to take any further steps appropriate to promote the licensing objectives. In addition, there is nothing to prevent a licensing authority issuing an informal warning to the licence holder and/or to recommend improvement within a particular period of time. It is expected that licensing authorities will regard such informal warnings as an important mechanism for ensuring that the licensing objectives are effectively promoted and that warnings should be issued in writing to the licence holder.

11.18 However, where responsible authorities such as the police or environmental health officers have already issued warnings requiring improvement – either orally or in writing – that have failed as part of their own stepped approach to address concerns, licensing authorities should not merely repeat that approach and should take this into account when considering what further action is appropriate.

11.19 Where the licensing authority considers that action under its statutory powers is appropriate, it may take any of the following steps:

- to modify the conditions of the premises licence (which includes adding new conditions or any alteration or omission of an existing condition),

- for example, by reducing the hours of opening or by requiring door supervisors at particular times;
- to exclude a licensable activity from the scope of the licence, for example, to exclude the performance of live music or playing of recorded music (where it is not within the incidental live and recorded music exemption);
  - to remove the designated premises supervisor, for example, because they consider that the problems are the result of poor management;
  - to suspend the licence for a period not exceeding three months;
  - to revoke the licence.

11.20 In deciding which of these powers to invoke, it is expected that licensing authorities should so far as possible seek to establish the cause or causes of the concerns that the representations identify. The remedial action taken should generally be directed at these causes and should always be no more than an appropriate and proportionate response.

11.21 For example, licensing authorities should be alive to the possibility that the removal and replacement of the designated premises supervisor may be sufficient to remedy a problem where the cause of the identified problem directly relates to poor management decisions made by that individual.

11.22 Equally, it may emerge that poor management is a direct reflection of poor company practice or policy and the mere removal of the designated premises supervisor may be an inadequate response to the problems presented. Indeed, where subsequent review hearings are generated by representations, it should be rare merely to remove a succession of designated premises supervisors as this would be a clear indication of deeper problems that impact upon the licensing objectives.

11.23 Licensing authorities should also note that modifications of conditions and exclusions of licensable activities may be imposed either permanently or for a temporary period of up to three months. Temporary changes or suspension of the licence for up to three months could impact on the business holding the licence financially and would only be expected to be pursued as an appropriate means of promoting the licensing objectives. So, for instance, a licence could be suspended for a weekend as a means of deterring the holder from allowing the problems that gave rise to the review to happen again. However, it will always be important that any detrimental financial impact that may result from a licensing authority's decision is appropriate and proportionate to the promotion of the licensing objectives. But where premises are found to be trading irresponsibly, the licensing authority should not hesitate, where appropriate to do so, to take tough action to tackle the problems at the premises and, where other measures are deemed insufficient, to revoke the licence.

## REVIEWS ARISING IN CONNECTION WITH CRIME

- 11.24 A number of reviews may arise in connection with crime that is not directly connected with licensable activities. For example, reviews may arise because of drugs problems at the premises; money laundering by criminal gangs, the sale of contraband or stolen goods, or the sale of firearms. Licensing authorities do not have the power to judge the criminality or otherwise of any issue. This is a matter for the courts. The licensing authority's role when determining such a review is not therefore to establish the guilt or innocence of any individual but to ensure the promotion of the crime prevention objective.
- 11.25 Reviews are part of the regulatory process introduced by the 2003 Act and they are not part of criminal law and procedure. There is, therefore, no reason why representations giving rise to a review of a premises licence need be delayed pending the outcome of any criminal proceedings. Some reviews will arise after the conviction in the criminal courts of certain individuals, but not all. In any case, it is for the licensing authority to determine whether the problems associated with the alleged crimes are taking place on the premises and affecting the promotion of the licensing objectives. Where a review follows a conviction, it would also not be for the licensing authority to attempt to go beyond any finding by the courts, which should be treated as a matter of undisputed evidence before them.
- 11.26 Where the licensing authority is conducting a review on the grounds that the premises have been used for criminal purposes, its role is solely to determine what steps should be taken in connection with the premises licence, for the promotion of the crime prevention objective. It is important to recognise that certain criminal activity or associated problems may be taking place or have taken place despite the best efforts of the licence holder and the staff working at the premises and despite full compliance with the conditions attached to the licence. In such circumstances, the licensing authority is still empowered to take any appropriate steps to remedy the problems. The licensing authority's duty is to take steps with a view to the promotion of the licensing objectives in the interests of the wider community and not those of the individual licence holder.
- 11.27 There is certain criminal activity that may arise in connection with licensed premises which should be treated particularly seriously. These are the use of the licensed premises:
- for the sale and distribution of Class A drugs and the laundering of the proceeds of drugs crime;
  - for the sale and distribution of illegal firearms;
  - for the evasion of copyright in respect of pirated or unlicensed films and music, which does considerable damage to the industries affected;
  - for the illegal purchase and consumption of alcohol by minors which impacts on the health, educational attainment, employment prospects and propensity for crime of young people;

- for prostitution or the sale of unlawful pornography;
- by organised groups of paedophiles to groom children;
- as the base for the organisation of criminal activity, particularly by gangs;
- for the organisation of racist activity or the promotion of racist attacks;
- for knowingly employing a person who is unlawfully in the UK or who cannot lawfully be employed as a result of a condition on that person's leave to enter;
- for unlawful gambling; and
- for the sale of smuggled tobacco and alcohol.

11.28 It is envisaged that licensing authorities, the police and other law enforcement agencies, which are responsible authorities, will use the review procedures effectively to deter such activities and crime. Where reviews arise and the licensing authority determines that the crime prevention objective is being undermined through the premises being used to further crimes, it is expected that revocation of the licence – even in the first instance – should be seriously considered.

#### **REVIEW OF A PREMISES LICENCE FOLLOWING CLOSURE ORDER**

11.29 Licensing authorities are subject to certain timescales, set out in the legislation, for the review of a premises licence following a closure order. The relevant time periods run concurrently and are as follows:

- when the licensing authority receives notice that a magistrates' court has made a closure order it has 28 days to determine the licence review – the determination must be made before the expiry of the 28th day after the day on which the notice is received;
- the hearing must be held within ten working days, the first of which is the day after the day the notice from the magistrates' court is received;
- notice of the hearing must be given no later than five working days before the first hearing day (there must be five clear working days between the giving of the notice and the start of the hearing).

#### **REVIEW OF A PREMISES LICENCE FOLLOWING PERSISTENT SALES OF ALCOHOL TO CHILDREN**

11.30 Where persistent sales of alcohol to children have occurred at premises, responsible authorities should consider applying for a review of the licence, whether there has been a prosecution for the offence under section 147A or a closure notice has been given under section 169A of the 2003 Act. In determining the review, the licensing authority should consider revoking the licence if it considers this outcome is appropriate. Responsible authorities should consider taking steps to ensure that a review of the licence is routine in these circumstances.
