Subject west leaseide in the parish of hilton

Dear Esther, in relation to the proposed diversion at West Leaseide in the parish of Hilton, this matter has been discussed at the group committee meeting on the 12th March and although no objections were raised to the proposal, there were concerns about the diversion route through the paddock containing geese. The lady at the property has said that gates could be fitted at each end of the diverted route and although she has mentioned warning notices about the geese we would hope that the route could be fenced to keep the geese in the remainder of the paddock.

Regards Ian Martin.
