

MATTERS ARISING FROM THE COSTAL AREA FORUM – 9 JANUARY 2008

(i) **West Street, Blackhall**

Councillor Cox has previously raised installing chicanes on West Street. Chicanes are more bulky and evident and a number would need to be installed because of the length of the road making the parking more of a problem. The overall cost for the chicanes would be impossible to meet from the budget available.

(ii) **Thorpe Road, Easington Village**

The owner of the empty house in Thorpe Road has been contacted and agreed to attend to the rear garden.

(iii) **Dog Bins/Litter on Castle Eden Walkway**

No bins can be provided on the walkway but one is to be placed at either entrance. The Coastal Rangers had arranged for a litter pick in the area.

(iv) **Dog Fouling at Craig Terrace and Carlton Terrace**

The Environmental Wardens have been instructed to carry out regular patrols in the area.

(v) **Bin Store, Blackhall Primary School**

An investigation has been carried out into the erection of a bin store in the grounds of Blackhall Primary School. The resident who it directly affects has been contacted and a solution is now being sought.
