The purpose of the report was to consider whether it was appropriate to make the Tree Preservation Order permanent.

It was explained that the Order must be confirmed within six months of being made or the Order would be null and void.

The tree, which was the subject of the Order, provided amenity value to the area and was considered worthy of protection to preserve the character of the main street through the village.

DC.14/07

TREE PRESERVATION ORDER NO 49/2007 DURHAM ROAD SEDGEFIELD

Consideration was given to a report of the Head of Planning Services (for copy see file of Minutes) regarding a Provisional Tree Preservation Order which had been made at the above site on 22nd March, 2007.

The purpose of the report was to consider whether it was appropriate to make the Order permanent.

It was explained that the Order must be confirmed within six months of being made or would be null and void.

The trees, which were the subject of the Order, provided amenity value to the area and were considered worthy of protection to preserve the character of the area.

The Committee was informed that objections had been received to the inclusion of the following trees :-

- T2 – Horse Chestnut
- T12 – Blue Spruce

Members were informed that the objection relating to tree T2 was that it was being suppressed by the surrounding trees and that it would never attain its natural canopy shape. The objection to tree T12 was that the tree was not visible from a public place.

In respect of tree T2, the omission of the tree from the Order would not have a significant effect upon the local landscape. However, with regard to tree T12, this was visible from public footpaths and open spaces from Hawthorn Road and Durham Road. The visibility would only increase with time as the tree grew taller and the amenity value increased as deciduous cover declined in the winter.

It was suggested therefore that tree T2 be omitted from the Order.

RESOLVED : That the above Tree Preservation Order be confirmed with the omission of tree T2.

DC.15/07
