CSS03	% of telephone calls answered within 15 seconds	94.6%	n/a	92%	N/A	N/A	N/A	High	We are unable to report performance for this period due to a technical fault currently experienced with the telephone system.
CSS07	% complaints responded to within 10 working days	82.3%	85%	90%		No	✓	High	Overall performance has steadily increased throughout the year. The greater concern is that we have consistently failed to reach our target, however, it is pleasing to note that all remaining council teams i.e. those not including Cestria services achieved a 100% target for the final quarter of the financial year.
HRLP01	% of voluntary leavers as % of staff in post	6.32%	15.00%	5.5%		No	✗	Low	Performance is higher than last year due to a clean up of the payroll system with casual posts being terminated. Also changes with LGR has resulted in a rise in resignations this year.
HRLP04	% of disciplinaries as a % of staff in post	3.05%	1.08%	1.0%		No	✓	Low	Performance is above target due to a number of disciplinary cases coupled with a drop in staff numbers. Staff numbers decreased dramatically due to staff transferring to Cestria Housing Association.
HRLP05	% of grievances as a % of staff in post	1.09%	0.86%	1.0%		Yes	✓	Low	Performance is ahead of target. This is principally because of the decrease in number of staff due to TUPE transfer of Departments.
HRLP14	% of recruitment enquiries responded to within 48 hours	100%	100%	80%		Yes	✓	High	Performance is ahead of target.
ITLP16	% of customer satisfaction regarding information and services available on the council website and associated portals	66%	67%	70%		No	✓	High	Satisfaction levels have improved as more services are made available on the website. Improved content from web content guidelines. Changing the Home Page design to make transactional services easier to find.
ITLP17	Increase in the use of the authority's website	105,652	135,628	108,946		Yes	✓	High	We have seen an increase in the use of the website. Improved communications regarding electronic services leading to increased take up. Based on last years take up we set a target to increase take up by about 3% and expected visits each quarter to be about the 27,000 figures. Instead the average quarterly visit was nearly 40,000 visits.

LPI No.	LPI Description	Actual 2006/07	Actual 2007/08	Target 2007/08	Current Perf Status	Achieved Target?	Improved on previous year?	Good Perf	Comments, Remedial Measures and Action
FSLP12	% of registered invoices approved/actioned within 7 days	90.91%	89.00%	90%		No		High	The slight under performance was minimal against target. The variance is relatively small percentage and the exchequer section relies heavily on the performance of other Service Teams in promptly passing invoices for payment. The section also lost a member of staff to Cestria during December 2007.
FSLP13	% of sundry debtors raised within 5 days of request	93.89%	99.47%	95%		Yes		High	The performance has been driven up by a planned approach and multi-tasking by staff.
FSLP31	% of actions completed from Risk Management Strategy	95.83%	90.09%	100%		No		High	As a result of LGR the Risk Management Strategy for Chester-le-Street DC has to a large extent been subsumed into work that is ongoing for the creation of the new Unitary Authority for County Durham. Of the 24 original actions, 20 were completed, 2 were deferred to LGR activity and 2 remain on target for completion during Qtr 1 2008-09.
FSLP40	% of actions completed from Procurement Strategy	94.64%	75.00%	100%		No		High	As a result of LGR the Procurement Strategy for Chester-le-Street DC has been subsumed into work that is ongoing for the creation of the new Unitary Authority for County Durham. ESLP10	% of designated grass areas cut within 10 working day cycle	98.1%	94.5%	90%		Yes		High	This year's target has been achieved although we have not achieved the same level of performance as last year. EHLP04	% of primary food hygiene inspections achieved of those planned	98%	99%	95%		Yes		High	We have exceeded our stated target this year.
PLLP33a	% of pre-application enquiries responded to within target (major)	78.10%	92%	90%		Yes		High	Major enquiry performance has improved in comparison to last year. This has been achieved as a result of the hiring of a temporary consultant to mitigate for the vacant officer post and the fact that the Team were (for the most part) fully staffed for the final quarter of the year. The investment in IT has also helped improve major enquiry performance.
PLLP33b	% of pre-application enquiries responded to within target (minor)	70.10%	74%	90%		No		High	Performance has significantly improved for minors due to a new officer appointment in September 2007. This is a key post within the team for dealing with minor pre-application enquiries. In addition the decision to 'train up' an Admin Officer to be able to deal with minor enquiries has also been instrumental in improving performance.
PLLP02	% of householder planning applications determined in 8 weeks	97.32%	87.0%	95%		No		High	Performance has fallen in comparison to last year. The reason this has occurred has been due to significant staffing shortages within the team across most of the financial year. Measures have been taken to address this and there is every reason to believe that performance will be back on target for next year.
PLLP29a	% of planning enforcement enquiries responded to within target (Category 1 cases)	100%	100%	90%		Yes		High	The single category 1 case received was investigated and a response provided to the complainant within 24 hours.

Enquiries accounted for 91.6% of all cases received and of the 152 cases received, 103 were responded to within the target response times. The change in performance with regard to category 3 cases has largely been attributed to the significant staffing and resources implications experienced during the Spring and Summer months of 2007.
