The Corporate Director of Neighbourhoods and Climate Change provided the Committee with an overview of his 4 main service areas:

- Community Protection Service - including Environmental Health, Consumer Protection and Licencing. Trading Standards and Licencing had provided advice and guidance to businesses during the pandemic on the new COVID-19 regulations. The Corporate Director was pleased to report that business compliance across the County had been excellent with very few enforcement actions being taken over the previous 12 months.

- Environment Services - including Refuse, Recycling and Clean and Green Teams, Allotment Service, Bereavement Services and Neighbourhood Wardens. The Environment and Design Team was at the forefront of the Council's climate change activities. The Carbon Management Team and Energy Management Team were involved in the climate emergency response plan which would be reported to Cabinet detailing the specific targets and progress made over the previous 12 months.
- Technical Services - including Highway Services, Highway Maintenance, Strategic Highways, Bridge Maintenance, Street Lighting, Public Rights of Way and Winter Maintenance. There was a Head of Service vacancy which would undergo a recruitment process shortly.
- Partnership and Community Engagement – There had been a large increase in the amount of work managing and supporting AAPs who are heavily involved with working in localities and communities. The Partnership Support Team assists the County Durham partnerships as well as many strategic and statutory partnerships and provides support for asylum seekers and resettlement schemes. The Civil Contingencies Unit has been at the forefront over the previous 12 months in response to emergency planning and resilience forum activity during the COVID-19 pandemic.

The Corporate Director confirmed priorities for the service including the climate change agenda, bridge maintenance and the waste disposal renewal contract. The COVID-19 response was a main priority and the Corporate Director advised that he was currently assessing the road map issued by central government to consider how it would apply to services going forward.

Despite the many challenges and changes to the ways of working, the Corporate Director confirmed that they had managed to deliver all services that were permitted during the pandemic whilst maintaining social distancing and safe operating practices. However this has resulted in additional costs and returning those services back to normal safely was under consideration.

- **Quarter 3 2020/21 Health, Safety and Wellbeing Performance Report**

The Committee received a report of the Occupational Health and Safety Manager which provided an update on the council's Health, Safety and Wellbeing (HSW) performance for Quarter three 2020/21 (for copy see file of minutes).

- Occupational Health Service
- COVID-19 Activity Data

Councillor Temple asked if there had been any changes to the number of psychological work related incidents for staff working from home. The Occupational Health and Safety Manager advised that despite psychology studies reporting a detrimental impact, there had been many positives as staff have embraced home working in terms of improved work/life balance. Overall statistics show there has been a decrease in psychological work related incidents. A further review would be needed to fully understand the effects of different ways of working and the lessons learnt during the last year.

Responding to a question from the Chair regarding safety messages relating to open water safety, the Occupational Health and Safety Manager advised that messages regarding cold water shock were communicated by regional organisations such as the Royal Society for the Prevention of Accidents (RoSPA) and the Royal Life Saving Society (RLSS). The Interim Corporate Director of Resources added that there was a post payment assurance process for specific government grant funding which was linked to value for money consideration as part of the final account's assessment. He gave assurance to the Committee that work in that area was

undertaken independently of those who administer the schemes and incur those costs.

Councillor Shuttleworth commented on the internal control recommendations within the report where the annual declaration of interests had not been completed for 2019/20. The Interim Corporate Director of Resources advised that all members are requested to complete annual declarations of interest forms and it was individual members responsibility. The Interim Corporate Director of Resources added that the finance teams work closely with the dedicated revaluation team within Corporate Property and Land, who follow the regulations and professional standards in terms of providing revaluations for the necessary capital accounting requirements as part of the statement of accounts.

14 Strategic Risk Management Progress Report for the Quarter Ended 31 December 2020

The Committee considered a report from the Interim Corporate Director of Resources which highlighted the strategic risks facing the Council and gave an insight into the work carried out by the Corporate Risk Management Group between October and December 2020 (for copy see file of minutes).

The Risk, Insurance and Governance Manager highlighted the changes since the last report. He informed Members that the risk relating to the County Durham Plan had been closed. The risk relating to replacement

cremators at Mountsett Crematorium had been delayed with the installation start date being put back until June 2021 due to the current COVID-19 restrictions for international travel, with the first installation to be completed in September 2021 and the second in December 2021.

Councillor Temple raised concerns that the Milburngate development was not listed on the risk register. He felt there would be significant changes in risks relating to income and expenditure as contracts were signed before the COVID-19 pandemic. The Risk, Insurance and Governance Manager advised that as part of the risk assessment review all areas are considered. Any risk in relation to the development has not been considered significant enough to be included on the risk register at this stage.

The Interim Corporate Director of Resources added that the Commercial Headleases update presented to Cabinet in February 2021 referenced the continual risk assessment for commercial projects. Although the updated financial model indicated a smaller surplus than originally forecasted, prudent assumptions still indicate an adequate surplus so as not be considered a significant risk. He advised that the Council's property investment strategy was prudent and measured in its approach and only considered strong business cases in terms of regeneration and significant jobs for the County. The financial model would be reviewed quarterly for changes and it was anticipated that the impact of COVID-19 would be short term and that the economy would improve. The commercial deal at Milburngate reflected a long term investment in this development.

Regarding the challenges the team faced in delivering the plan, Mr C Robinson asked if there was anything the Audit Committee could do to support addressing those challenges. The Interim Chief Internal Auditor and Corporate Fraud Manager informed the Committee that the main challenge was the unknown elements of additional work in response to the COVID-19 pandemic in terms of extensions and additional grants. Working remotely was time consuming and he intended to increase resources to help deliver the plan.

Mr Rudd referred to the allocation of resources table and suggested that previous years comparisons would be useful to see where the emphasis was changing. The Interim Chief Internal Auditor and Corporate Fraud Manager confirmed that this information could be provided.
