### **Recommendation(s)**

5 Members are asked to:

- (a) Consider the contents of the Cabinet report and provide any additional scrutiny comments.

### **Background**

6 COSMB considered the update of the development of the 2019/20 budget and MTFP (9) report at their meeting held on 14 September 2018. The report had identified at the time that significant additional savings of £25.37million were required to balance the budget across the 2019/20 to 2022/23 period. Further budget pressures were also identified together with some additional savings proposals.

7 COSMB discussed the report in detail and the Head of Corporate Finance and Commercial Services responded to Member questions.

8 A summary of the discussion was forwarded to Cabinet with the following issues raised for their consideration:

- a) Members of the committee had significant concerns about the forthcoming national Fair Funding Review, and how rurality and poverty, both key issues for County Durham, will be taken into consideration. Members of the committee would like reassurance that a strong case for the County will be made, and that specifically there will be feedback on the need to build these two factors into considerations.
- b) A specific concern regarding the level of available funding for dropped kerb crossings was raised, in light of increasing costs for each adaptation, and requested consideration of whether it would be possible to look at the ability to spend more on this.
- c) Members emphasised the need to keep lobbying Government in relation to the Fair Funding Review, and to seek early clarity on funding levels.
- d) Members considered that it was important to press for more funding as part of lobbying of Government.

e) A specific point in relation to funding levels for schools was also brought to the attention of the Committee, and the need to look at the fairness of funding between different schools across the County, in light of changing national policies, given the variation in funding per pupil between schools.

9 Following the presentation of the Autumn Budget to Parliament and the provisional Local Government Finance Settlement published on 13 December 2018 amendments have been made to both the 2019/20 budget and savings requirements across the MTFP (9) period 2019/20 to 2022/23.
