

# Local Criminal Justice Partnership Plan – January 2018

## Local Criminal Justice Partnership objectives:

- 1** An end-to-end service for supporting Victims and Witnesses, so that they:
  - Receive the support they need to cope and recover from the impact of the crime
  - Are supported to provide their evidence before and at court so that justice is delivered both fairly and effectively; this will include support with advocacy and navigation through the court process as well as making full use of technology;
  - Where appropriate, feel involved in the ongoing sentencing and rehabilitation of those people who offend so that they can continue to recover from their experience;
  - Are not passed from one agency to another without good cause;
  - Receive tailored support based on individually assessed need.
- 2** An end-to-end system for rehabilitating offenders and reducing reoffending so that those who offend:
  - Are challenged to accept responsibility and change their offending behaviour;
  - Have any underlying causes of their offending identified, and are provided with access to specialist services to help to resolve those issues – including drugs, alcohol, relationship and emotional support, and mental health – as early as possible in the system and throughout;
  - Gain opportunities to improve their skills and employability, and have access to work upon completion (or as part) of their sentence, so that their offending stops and they contribute to the local economy and community;
  - Are provided with access to settled and safe accommodation, particularly vulnerable people who offend;
  - Receive integrated support from agencies so that the public are kept safe;
  - Are offered effective rehabilitation as part of any punishment.
- 3** The most efficient and integrated local criminal justice system in the country so that agencies:
  - Provide good value for money to taxpayers and local communities and work to eradicate waste;
  - Work together to monitor their own performance and resolutely resolve issues;
  - Recognise the impact that one service has on another and see solving problems as a shared responsibility;
  - Harness the opportunities of reforms and freedoms, nationally and locally, to take new and innovative approaches in pursuit of our overall objectives.
