

Pension Fund Committee

14 March 2019

Overall Value of Pension Fund Investments to 31 December 2018

Report of John Hewitt, Corporate Director of Resources

Purpose of the Report

1. To provide an update to Members on the:
 - (a) overall value of the Pension Fund's investments at 31 December 2018;
 - (b) movement in the cash balance during the last four quarters;
 - (c) projected cash flow position up to 31 March 2020.

Executive Summary

2. Appendix 1 details the working cash balance position of the Pension Fund and actual cash flow for the last four quarters. At 31 December 2018 the value of the Fund was £2.742 billion and the cash balance held in the Durham County Council Pension Fund bank account was £45.870 million. Fund Managers also held cash of £27.553 million at that date.
3. The cash flow forecast detailed in Appendix 2 indicates net cash outflows, excluding cash withdrawals from fund managers, in future quarters of between £10 million and £17 million. As fund rebalancing has been suspended whilst the strategic asset allocation is under review, a recovery of £20 million from Fund Managers in the quarters ending 30 June 2019 and 31 December 2019 has been included in the forecast.

Recommendation

4. Members are asked to note the information contained in this report.

Background

Value of the Pension Fund

5. Reports from the seven appointed Fund Managers, namely:

- Aberdeen Standard
- AB
- BlackRock
- Bank of New York Mellon (Walter Scott)
- CB Richard Ellis
- Mondrian
- Royal London

are included in other papers within this agenda.

6. The value of the Fund at 31 December 2018 was £2.742 billion compared to £2.883 billion at 30 September 2018. This is a decrease of £140.21 million (4.86%) in the third quarter of 2018/19.

Allocation of New Investment Money/ Withdrawal of Investment Money to Deal with Estimated Shortfall

7. New investment money is allocated to Fund Managers when the Pension Fund has cash which is not required to be available as a working cash balance, for example to pay pensioners or fees.
8. When it is estimated that the Pension Fund will not have sufficient cash available as a working cash balance, cash is withdrawn from Fund Managers.
9. Appendix 1 details the working cash balance position of the Pension Fund and actual cash flow for the last four quarters. As at 31 December 2018 the cash balance held in the Durham County Council Pension Fund bank account was £45.870 million. In addition to this, not included in this table, Fund Managers were holding cash of £27.553 million at 31 December 2018.
10. During the last quarter £26 million was returned from one fund manager who is expected to make capital calls on this sum as and when required.

Cash Flow Forecast 2018/19

11. Appendix 2 shows the projected cash flow for the Pension Fund for the period January 2019 to March 2020. It should be noted that this is only in respect of cash held in the Pension Fund bank account and that income earned from investments is currently retained by Managers.
12. The forecast includes the recovery of £20 million from Fund Managers in the quarters ending 30 June 2019 and 31 December 2019. Without the recovery of the aforementioned amounts, the Pension Fund is estimated to be in a cash negative position in all quarters to 31 March 2020.
13. The forecast indicates net cash outflows in future quarters of between £10 million and £17 million. The size of the outflows are exacerbated due to the early receipt of Durham County and Darlington Borough Councils' deficit contributions in April 2017, the impact of which is an apparent reduction in future contributions receivable of £6.598 million per quarter.
14. The following assumptions have been used in the cash flow forecast:
 - (a) Annual dividend income receivable is estimated to be £28 million and profiled to be received as follows:

(i)	Quarter ended 31 March 2019	29%
(ii)	Quarter ended 30 June 2019	21%
(iii)	Quarter ended 30 September 2019	24%
(iv)	Quarter ended 31 December 2019	26%
 - (b) Increases in contributions are included in line with the actuarial valuation.
 - (c) Transfer values due in are estimated at £1.25 million per quarter. It is anticipated that transfers in will continue as the LGPS remains relatively attractive to employees.
 - (d) Pensions increase was 3% with effect from 1 April 2018, and is forecasted to be 2.4% with effect from 1 April 2019.
 - (e) Payroll paysheets (payments to pensioners) are forecast to increase by £0.25 million per quarter, from 1 April 2019. This figure will alter if there are large numbers of retirements from the employing authorities. It is anticipated however that the actual figure will not be materially different to the forecast since the

position of the County Council, being the largest employer in the Fund, has been taken into account.

- (f) Payable paysheets are forecast on the basis of the previous year's profile and adjusted for known one-off payments, although this can be the most volatile figure as it includes payments of lump sums and fees to managers. This assumption errs on the side of prudence, in that this is an average figure taken from previous quarterly payments.
15. Appendix 2 provides an early indication of the likely impact on the Pension Fund's cash flow position over the next 15 months. It is continuously under review and is refined to take any new information into account as it becomes available.

Fund Rebalancing

16. Fund rebalancing is the mechanism by which the Pension Fund would ensure that the asset allocation to Investment Managers is maintained at the target levels previously agreed by the Pension Fund Committee and as set out in the Investment Strategy Statement. It is also the means by which cash is moved to or from managers as a consequence of the cash flow forecasts.
17. Due to the current suspension of fund rebalancing, there was no rebalancing exercise this quarter.
