Dear Ms Raine

Thank you for sending this invitation. As I explained in my previous e mail, due to an unfortunate clash of dates. we are unable to attend this meeting. Angela and I are both for the and will be examining in London on 30th April. I would like the committee to know that I would have made every effort to attend in person, but this is a commitment that I cannot alter. Our views, as expressed in our written statement, stand. In addition I have provided a photograph (attached, together with the completed attendance form). This is a view taken from our dining room window indicating the proximity of the Barrio Comida premises to our back garden for any members who may be unfamiliar with the area.

Kind regards

Peter Carey
