

County Council

18 September 2019

Treasury Management Outturn 2018/19

Report of Corporate Management Team
John Hewitt, Corporate Director of Resources

Electoral division(s) affected:
Countywide.

Purpose of the Report

- 1 To provide information on the treasury management outturn position for 2018/19.

Executive Summary

- 2 This report provides a summary of the Council's treasury position, borrowing activity, investment activity, treasury management and prudential indicators.
- 3 The Council held £311 million in borrowing and £245 million of investments at 31 March 2019. During 2018/19 borrowing of £30 million was taken out from the PWLB at rates of between 2.29% to 2.37%. Furthermore, future borrowing of £60m has been agreed to be taken out during the periods 2020 to 2022 in four separate loans at interest rates of between 2.7% to 2.8%. This has enabled the Council to make savings against the cost of carrying the loans if they had been taken out immediately at the prevailing PWLB rates.
- 4 Investments have been undertaken in line with both the CIPFA Code and government guidance which require the Council to invest its funds prudently, and to have regard to the security and liquidity of its investments before seeking the highest rate of return, or yield.
- 5 During the year ending 31 March 2019 the Council has complied with Treasury Management Indicators relating to interest rate exposure, maturity structure of borrowing and sums invested for more than one year. The Council has also complied with Prudential Code Indicators

which relate to the capital programme and how much the Council can afford to borrow.

Recommendation

- 6 Council is asked to note the contents of the report.

Background

- 7 Treasury management is defined as ‘the management of the local authority’s investments and cash flows, its banking, money market and capital market transactions, the effective control of the risks associated with those activities and the pursuit of optimum performance consistent with those risks’.
- 8 The Council operates a balanced budget, which broadly means that cash raised during the year will meet cash expenditure. Part of the treasury management operation is to ensure this cash flow is adequately planned, with surplus monies being invested in low risk counterparties, with a main aim of providing sufficient liquidity, ahead of the achievement of the best possible investment returns.
- 9 The second main function of the treasury management service is to arrange the funding of the Council’s capital programme. The capital programme provides a guide to the borrowing need of the Council and there needs to be longer term cash flow planning to ensure capital spending requirements can be met. The management of longer term cash may involve arranging long or short term loans, utilising longer term cash flow surpluses and occasionally debt restructuring to meet Council risk or cost objectives.
- 10 The Council adopts the latest CIPFA Code of Practice on Treasury Management (the Code) which is regarded as best practice in ensuring adequate monitoring of the Council’s capital expenditure plans and its Prudential Indicators (PIs). This requires that Members agree the following reports, as a minimum:
 - (a) An annual Treasury Management Strategy in advance of the year (reported to the County Council on 21 February 2018 for the 2018/19 financial year);
 - (b) a mid-year Treasury Management Review report (reported to the County Council on 5 December 2018);
 - (c) an annual review following the end of the year describing the activity compared to the strategy (this report);
- 11 This report provides a summary of the following:
 - (a) summary treasury position;
 - (b) borrowing activity;
 - (c) investment activity;

(d) treasury management indicators;

(e) prudential indicators;

Summary Treasury Position

12 The Council's debt and investment position is organised to ensure adequate liquidity for revenue and capital activities, security for investments, and to manage risks within all treasury management activities.

13 At the beginning and end point of 2018/19 the Council's treasury position (excluding borrowing by finance leases) was as follows:

	31.03.18	Rate /Return	Average Life	31.03.19	Rate /Return	Average Life
	£ million	%	years	£ million	%	years
Total Debt	291	3.88	17.61	311	3.75	17.99
Total Investments	172	0.56	0.3	245	0.97	0.32
Net Debt	119			66		

14 As at 31 March 2019, the Council held £311 million in borrowing and £245 million in investments.

Borrowing Activity

15 At 31 March 2019, the Council held £310.605 million of loans, an increase of £19.992 million from the start of the year. The borrowing position and the change since the start of the year is shown in the following table:

	31.3.18 Balance	In-year Movement	31.3.19 Balance	Average Rate	31.3.19 Average Life
	£ million	£ million	£ million	%	years
Public Works Loan Board	238.979	19.998	258.977	3.62%	17.85
Private Sector	51.420	0.008	51.428	4.41%	27.20
Pension Fund	0.214	(0.014)	0.200	8.01%	8.93
Total borrowing	290.613	19.992	310.605		

- 16 The Council's chief objective when borrowing has been to strike an appropriate risk balance between securing low interest costs and achieving cost certainty over the period for which funds are required.
- 17 To take advantage of historically low rates of interest, new borrowing of £30m was raised in 2018/19 with details in the following table.

Lender	Principal	Interest	Start Date	Length
	£ million	Rate		
		%		
PWLB	10.00	2.31	31/05/2018	40 years
PWLB	10.00	2.37	22/03/2019	40 years
PWLB	10.00	2.29	25/03/2019	40 years
Total	30.00			

- 18 The key maturity during the year was a £10m PWLB loan that was taken out in October 2011 at 2.72% and matured in September 2018.
- 19 Affordability and the “cost of carry”, the gap between the interest rate on borrowings and the interest rate achieved on investments, continued to be important influences on the Council’s borrowing strategy. During the year the Council’s Treasury Management advisors, Link Asset Services, identified that there was a strong possibility that interest rates would have increased by the time the Council next needed to undertake significant borrowing to support the capital programme. An appraisal was undertaken to compare the potential borrowing alternatives that were identified:
- (a) to secure future borrowing at fixed, historically low, rates with no cost of carry anticipated
 - (b) taking out PWLB loans at current rates and incurring costs of carry until they were needed.
- 20 The conclusion was that securing future borrowing at the following fixed rates was identified as the preferred option:

Loan Number	Deferred Period	Rate	Amount	Start Date	End Date
Loan 1	1.5 years	2.733%	£20m	13/02/2020	13/02/2070
Loan 2	2.5 years	2.773%	£15m	15/02/2021	15/02/2071
Loan 3	3 years	2.793%	£15m	13/08/2021	13/08/2071
Loan 4	3.5 years	2.807%	£10m	15/02/2022	15/02/2072

- 21 This enabled the Council to make savings against the cost of carrying the loans if they had been taken out immediately at the prevailing PWLB rates and secure a £750,000 MTFP saving in 2019/20 against the borrowing costs budget.

- 22 No rescheduling was undertaken during the year as the differential between PWLB new borrowing rates and premature repayment rates made rescheduling unviable.

Other Debt Activity / Long Term Liabilities

- 23 Although not classed as borrowing, the Council also raised £4.599 million of capital finance for replacement fleet vehicles and equipment via finance leases during the year to 31 March 2019.
- 24 Total debt other than borrowing stood at £81.058 million on 31 March 2019, taking total debt to £391.663 million.

Investment Activity

- 25 The Council has held significant funds as investments representing funds received in advance of expenditure plus balances and reserves held. During 2018/19, investment balances ranged between £172 million and £282 million.
- 26 As at 31 March 2019 the Council held investments totalling £245.370 million. The following table provides a breakdown of these investments split by the type of financial institution and maturity period.

Financial Institution	0-3 months	3-6 months	6-12 months	12-24 months	Total
	£ million				
Banks	29.381	26.063	47.769	8.664	111.877
Building Societies	-	-	-	-	-
Central Government	0.867	-	-	-	0.867
Other Local Authorities	4.332	59.929	68.365	-	132.626
Money Market Funds	-	-	-	-	-
Total	34.580	85.992	116.135	8.664	245.370
% of total	14%	35%	47%	4%	

- 27 The Council's investment policy is governed by Ministry of Housing, Communities and Local Government (MHCLG) guidance, which has been implemented in the annual investment strategy approved by the Council on 21 February 2018. Both the CIPFA Code and government guidance require the Council to invest its funds prudently, and to have regard to the security and liquidity of its investments before seeking the highest rate of return, or yield. The Council's objective when investing money is to strike an appropriate balance between risk and return,

minimising the risk of incurring losses from defaults and the risk of receiving unsuitably low investment income.

- 28 All of the Council's investment activity has remained within the benchmarks for managing investment risk which were included in the Annual Treasury Management Strategy. The following table compares the actual position as at 31 March 2019 against the previously agreed benchmarks.

Investment Risk	Measured by	Benchmark	Actual position 31.03.2019
Security	% of historic risk of default	0.08%	0.014%
Liquidity	Weighted average life to maturity at execution	6 months (183 days) average 9 months (274 days) maximum	238 days average
Yield	Internal returns above the 7 day LIBID rate (average)	0.507%	0.838%

Treasury Management Indicators

- 29 There are three debt related treasury activity limits which are designed to manage risk and reduce the impact of an adverse movement in interest rates.

Interest Rate Exposures: This indicator is set to control the Council's exposure to interest rate risk. The upper limits on fixed and variable rate interest rate exposures, expressed as the proportion of net principle invested was:

	31.3.19 Actual	31.3.19 Actual	2018/19 Limit	Complied
Upper limit on fixed interest rate exposure	£271.1m	87.3%	100%	✓
Upper limit on variable interest rate exposure	£39.5m	12.7%	70%	✓

Maturity Structure of Borrowing: This indicator is set to control the Council's exposure to refinancing risk. The upper and lower limits on the maturity structure of fixed rate borrowing were:

	Lower Limit	Upper Limit	31.3.19 Actual	Complied
Under 12 months	0%	20%	4%	✓
12 months to 2 years	0%	40%	3%	✓
2 years to 5 years	0%	60%	10%	✓
5 years to 10 years	0%	80%	23%	✓
10 years and above	0%	100%	60%	✓

Principal Sums Invested for Periods Longer than 364 days: The purpose of this indicator is to control the Council's exposure to the risk of incurring losses by seeking early repayment of its investments:

	Limit	As at 31.3.19	Complied
Actual principal invested beyond one year	£75m	£10m	✓

Prudential Code Indicators

- 30 The Local Government Act 2003 requires the Council to have regard to the Chartered Institute of Public Finance and Accountancy's Prudential Code for Capital Finance in Local Authorities (the Prudential Code) when determining how much money it can afford to borrow.
- 31 The objective of the Prudential Code is to ensure, within a clear framework, that the capital investment plans of local authorities are affordable, prudent and sustainable, and that treasury management decisions are taken in accordance with good professional practice. To demonstrate that the Council has fulfilled these objectives, the Prudential Code sets out the following indicators that must be set and monitored each year.

Capital Expenditure: The table below summarises capital expenditure incurred and how the expenditure was financed:

Capital Expenditure	2018/19 Estimate £ Million	2018/19 Actual £ Million	Difference £ Million
Capital Programme	103.819	91.258	(12.561)
Financed by:			
Capital receipts	13.206	9.391	(3.815)
Capital grants	65.745	52.183	(13.562)
Revenue and reserves	24.868	22.116	(2.752)
Net borrowing financing need for the year	0.000	7.568	7.568

Capital Financing Requirement (CFR): The CFR is a measure of the Council's underlying borrowing need for a capital purpose. The CFR includes any other long term liabilities (e.g. PFI schemes, finance leases). The actual outturn position compared to the original estimate in February 2018 is set out in the following table:

	2018/19 Estimate £ Million	2018/19 Actual £ Million	Difference £ Million
Capital Financing Requirement	484.786	457.660	(27.126)

Actual Debt: The Council's actual debt at 31 March 2019 compared to the original estimate in February 2018 is as follows:

	Revised Estimate £ Million	Final Outturn £ Million	Difference £ Million
Borrowing	295.597	310.605	15.008
Finance leases*	46.670	42.712	(3.958)
PFI liabilities	38.182	38.346	0.164
Total Debt	380.449	391.663	11.214

*The opening position for finance leases has been adjusted to reflect the Council's long term lease interest in properties at Freemans' Reach, for the sum of £32.989 million.

Gross Debt and the Capital Financing Requirement: In order to ensure that over the medium term debt will only be for a capital purpose, the Council should ensure that debt does not, except in the short term, exceed the total of the capital financing requirement in the preceding year plus the estimates of any additional capital financing requirement for the current and next two financial years. This is a key indicator of prudence. The actual outturn position compared to the original estimate in February 2018 is set out in the following table:

	2018/19 Estimate £ Million	2018/19 Actual £ Million	Difference £ Million
Total debt	380.449	391.663	11.214
Capital financing requirement	484.786	457.660	(27.126)
Headroom (Under borrowed)	104.337	65.997	(38.340)

Operational Boundary: This is the limit beyond which external borrowing is not normally expected to exceed. Periods where the actual position is either below or over the boundary is acceptable subject to the authorised limit not being breached.

	2018/19 Estimate £ Million	2018/19 Actual £ Million	Complied
Borrowing	432.000	310.605	✓
Other long term liabilities*	86.000	81.058	✓
Total	518.000	391.663	✓

*The opening position for other long term liabilities has been adjusted to reflect the Councils long term lease interest in properties at Freemans' Reach, for the sum of £32.989 million.

Authorised Limit for external borrowing: This represents a control on the maximum level of borrowing and is a statutory limit determined under section 3 (1) of the Local Government Act 2003. It reflects the level of external borrowing which, while not desired, could be afforded in the short term, but is not sustainable in the longer term.

	2018/19 Estimate £ Million	2018/19 Actual £ Million	Complied
Borrowing	482.000	310.605	✓
Other long term liabilities*	91.000	81.058	✓
Total	573.000	391.663	✓

*The opening position for other long term liabilities has been adjusted to reflect the Council's long term lease interest in properties at Freemans' Reach, for the sum of £32.989 million.

Actual and estimates of the ratio of financing costs to net revenue stream: This indicator identifies the trend in the cost of capital (borrowing and other long term obligation costs, net of investment income) against the net revenue stream.

	2018/19 Estimate %	2018/19 Actual %	Difference %
Ratio of financing costs to net revenue stream	7.67	7.52	(0.15)

Conclusion

- 32 The Council has complied with its Treasury Management Strategy 2018/19 for its full year activity covering the period to 31 March 2019.
