

### **Additional Information from Nicole Henderson**

I don't agree that there should be events such as a beer festival, there is only one way on and off the site and I think large numbers of people is not going to be managed safely. Any event should have a maximum capacity and I would like to know what that would be. I also want to know what constitutes to an 'event' if it is said that they will only serve alcohol at the events. I wouldn't object to alcohol being sold until 9pm as opposed to 10pm through the week as proposed.
