POTENTIAL DISTRIBUTION OF ICS FUNCTIONS TO EACH LEVEL: **SYSTEM**

- Setting strategy
- Managing overall resources, performance and financial risk
- Planning and commissioning specialised and acute services across larger footprints
- Improvement programmes for quality and patient safety (including safeguarding)
- Workforce planning
- Horizon scanning and futures
- Harnessing innovation
- Building research strategy and fostering a research ecosystem
- Driving digital and advanced analytics as enablers
- Health emergency planning and resilience
- Improving population health and reducing health inequalities
- Strategic communications

POTENTIAL DISTRIBUTION OF ICS FUNCTIONS TO EACH LEVEL: PLACE

- Fostering service development and delivery with a focus on neighbourhoods and communities
- Commissioning local integrated community-based services for children and adults (including care homes and domiciliary care).
- Primary care commissioning – building the capacity of local Primary Care Networks and supporting their clinical leadership role.
- Local Clinical Leadership including clinical pathway redesign and helping shape the commissioning of acute services
- Monitoring the quality of local health and care services – including support to care homes, e.g. infection prevention and control.
- Forging strong working relationships with the wider local system including HealthWatch, the VCSE sector, and other local public services.
- Building strong relationships with communities

ICS GOVERNANCE

ICB governance arrangements – core elements

ICPs *statutory*

- **Each ICS area will have an Integrated Care Partnership** at system level
- **Established by the ICB and relevant local authorities** as equal partners.
- We expect the ICP to have a specific **responsibility to develop an Integrated care strategy** for its whole population (covering all ages) using the best available evidence and data – including patient experience, covering both children's and adult's social care, health inequalities and the wider determinants which drive these inequalities.

ICBs *statutory*

- **42 ICBs will replace existing CCGs from April 2022.** Each ICB will be **governed by unitary board**, with flexibility to establish board roles.
- **Minimum board membership is 10 roles:** an ICB Chair, 2 x independent executive members, 4 x ICB executive roles, 3 x partner members
- Unitary board will be **required to establish an audit committee and remuneration committee**
- **Flexibilities to establish and deploy other committees of the board**, with the power to a) appoint non-ICB staff to be committee members b) delegate functions to be exercised by or jointly with other organisations

Place based partnerships

- **ICBs will be able to arrange for functions to be exercised** and decisions to be made, by or with place-based partnerships, **through a range of different arrangements.**
- **The ICB will remain accountable for NHS resources deployed at place-level.**

Provider collaboratives

- May be at sub system, system or supra-system level
- **Must agree specific objectives with one or more ICB**, to contribute to the delivery of that system's strategic priorities.

INTEGRATED CARE BOARD: MEMBERSHIP

Independent Chair plus a minimum of two other independent non-executive directors. (These individuals will normally not hold positions or offices in other health and care organisations within the ICS footprint.)

At least one member drawn from **NHS trusts and foundation trusts** who provide services within the ICS's area

At least one member drawn from **general practice** within the area of the ICS NHS body

At least one member drawn from the **local authority**, or authorities, with statutory social care responsibility whose area falls wholly or partly within the area of the ICS NHS body.

Chief Executive, Director of Finance, Director of Nursing, Medical Director mandatory plus others as required.

Non-voting membership

Participants: invitees who may address the meeting at the discretion of the Chair

Observers: invitees who may not address the meeting

GUIDANCE: Set out in *Interim guidance on the functions and governance of the integrated care board*, August, 2021.

INTEGRATED CARE BOARD: GOVERNANCE FEATURES

The ICB is a Unitary Board

- Where each member has shared corporate accountability for delivering all of its functions and duties.

Responsible for achieving:

- The four wider purposes of the Integrated Care System
 - **improving outcomes** in population health and healthcare;
 - **tackling inequalities** in outcomes, experience and access;
 - **enhancing productivity** and value for money;
 - supporting broader **social and economic development**.
- Good stewardship of NHS processes of planning, development, delivery, and the proper use of resources

ESTABLISHING AN INTEGRATED CARE PARTNERSHIP

ESTABLISHING THE INTEGRATED CARE PARTNERSHIP

ETHOS: The Integrated Care Partnership will have a key role to play in setting the tone and culture of the system. Operating a collective model of accountability, including to local residents.

REQUIREMENTS: System partners to determine how the ICP will operate, agree the leadership arrangements and functions it will carry out over and above its statutory responsibilities. The ICP is tasked with developing an integrated care strategy for the area.

GUIDANCE: Set out in *Integrated Care Partnership (ICP) engagement document: Integrated Care Systems (ICS) implementation, September 2021*

INTEGRATED CARE PARTNERSHIP: MEMBERSHIP

The ICP will need to mutually agree terms of reference, membership, ways of operating and administration.

Chair is jointly selected by NHS and local authority; can be same chair as ICB – approach to be determined locally.

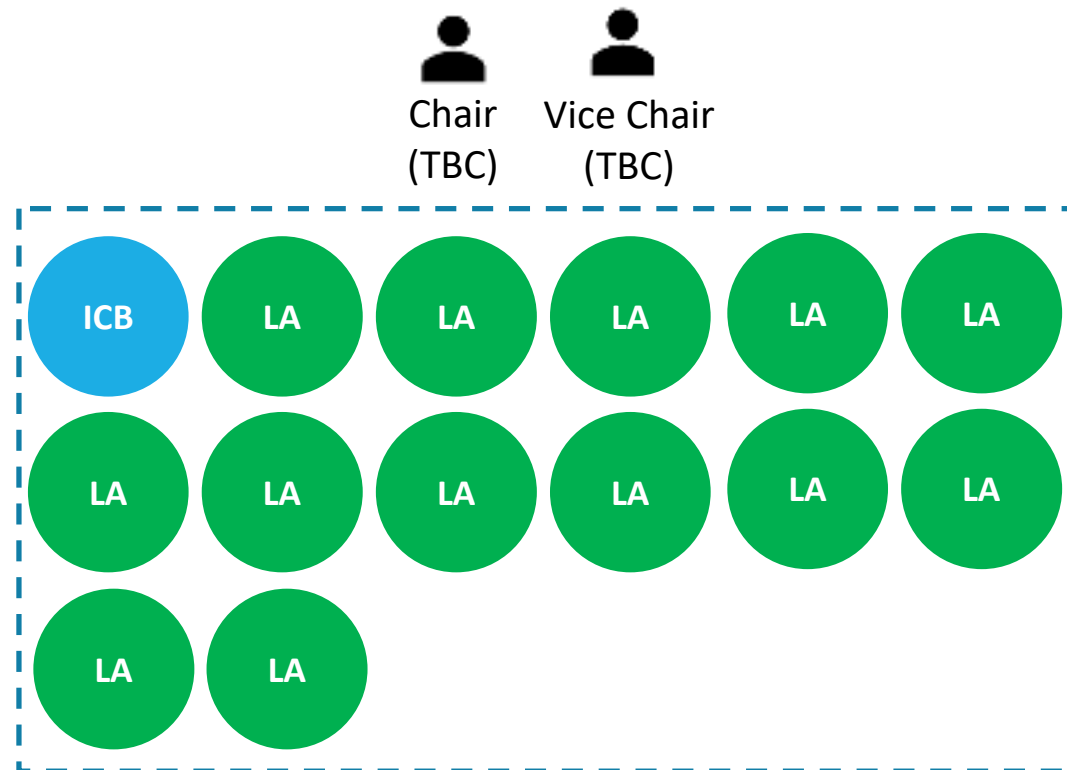

Members must include all local authorities and the local NHS (represented at least by the ICB).

Representatives should draw on a wide range of partners working to improve health and care in their communities, including the views of patients and the social care sector.

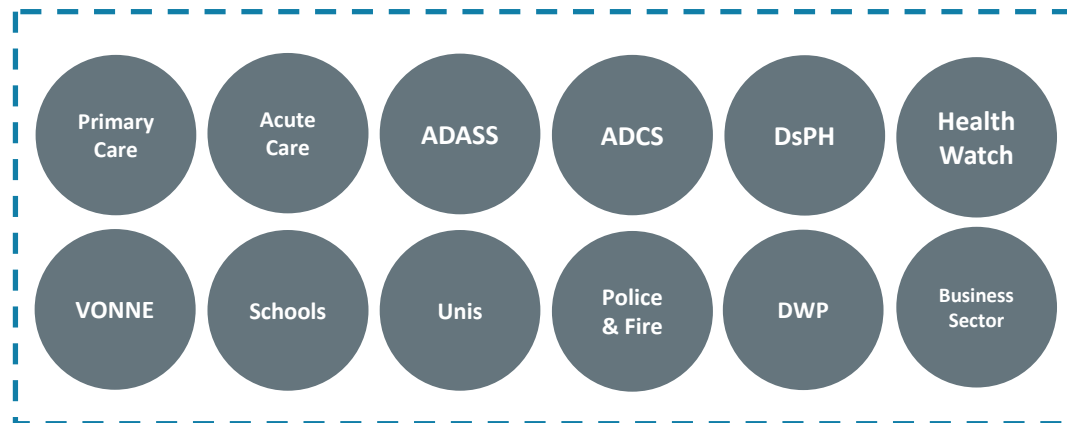

GUIDANCE: Set out in *Integrated Care Partnership (ICP) engagement document: Integrated Care Systems (ICS) implementation, September 2021*
