

# **Children and Young People Overview and Scrutiny Committee**

**23 September 2022**

## **Quarter One, 2022/23 Performance Management Report**

### **Ordinary Decision**

### **Report of Paul Darby, Corporate Director of Resources**

#### **Electoral division(s) affected:**

Countywide.

#### **Purpose of the Report**

- 1 To present an overview of progress towards achieving the key outcomes of the council's corporate performance framework and highlight key messages to inform strategic priorities and work programmes.
- 2 The report covers performance in and to the end of quarter one 2022/23, April to June 2022.

#### **Executive Summary**

- 3 A new [Council Plan](#) for 2022-2026 was approved by Council on 22 June. This sets out a new performance framework for the Council. Corporate Management Team has agreed to the development of a new quarterly performance report format which provides greater focus on these issues. This is the first report for the new reporting period to follow this format.
- 4 The performance report is structured around the two main components.
  - (a) State of the County indicators to highlight areas of strategic importance and reflected in both the [County Durham Vision 2035](#) and the [Council Plan](#).
  - (b) Performance of council services and progress against major initiatives as set out in the [Council Plan](#).
- 5 Performance is reported against the five thematic areas within the Council Plan 2022-2026: our economy, our environment, our people, our communities, and our council.
- 6 Performance is reported on an exception basis with key messages under each thematic Council Plan areas being broken down into national, regional

and local picture, things that are going well, areas which require attention and other areas to note.

- 7 We are now transitioning into a post-pandemic world, but the impacts of COVID-19 can still be seen in our performance reporting. The last two financial years are not representative for many areas of performance and will be an unfair comparison due to pandemic impacts.
- 8 We have therefore, wherever possible, tried to make the comparison of current performance against pre-pandemic data. Whilst COVID-19 continues to impact on certain performance metrics, there is evidence of some areas returning to pre-pandemic levels.
- 9 However, the largest challenge for our residents, local businesses and the council is the current cost of living crisis. Inflation is currently running at 10.1%<sup>1</sup> with the Bank of England forecasting it to peak at 13.3% at the end of March 2023. Ofgem are expected to increase the energy cap again in October and further again in January 2023. The inflationary increase is largely driven by the rise in the cost of fuel and energy bills, which is being impacted significantly by the war in Ukraine.
- 10 The cost of living crisis has a triple impact on the council.
  - (a) It impacts on our residents. High inflation is outstripping wage and benefit increases resulting in a fall in income in real terms. This has been further exacerbated by the tax increases implemented in April. This will result in increased demand for services to help support people facing financial hardship or who are in crisis.
  - (b) Increased costs for the council. Our premises and transport costs have increased because of the rise in energy costs and fuel prices, and, also the cost of other supplies and services where prices have increased as suppliers face similar issues themselves. It is also anticipated that employee costs will increase by more than in previous years when the settlement is negotiated to accommodate inflation.
  - (c) Reduced income for the council. Users of council services may seek to save money resulting in a fall in income from discretionary services such as leisure centres and theatres.
- 11 Other areas which require attention relate to social work caseloads which remain higher than optimum and the extreme pressure on child placements in the looked after service remains.

## **Recommendation**

- 12 That Children and Young People's Overview and Scrutiny Committee notes the overall position and direction of travel in relation to quarter one performance, the continuing impact of COVID-19 and the increased cost of

---

<sup>1</sup> UK Consumer Price Index for 12 months to July 2022

living on the council's performance, and the actions being taken to address areas of underperformance including the significant economic and well-being challenges because of the pandemic.

## **Analysis of the Performance Report**

### **Going well**

#### **Our economy**

- 13 94% of three and four year olds in the county are receiving their free education entitlement.

#### **Our people**

- 14 581 families have been turned around via the Stronger Families programme, 545 by attaining significant and sustained outcomes and 36 by maintaining continuous employment.

### **Areas which require attention**

#### **Our people**

- 15 Caseloads remain high across our social workers. Newly qualified social workers recruited will take up their posts over the summer. We remain focused on retention as well as recruitment.
- 16 More children in care have resulted in significant placement pressures, which are reflected both regionally and nationally, and are focusing on increasing capacity within our in-house children's homes, recruiting more foster carers, and working with children and their families to prevent them entering the care system. The CLA placement budgets are forecast to overspend by £5.39 million this year.
- 17 High demand for Education, Health and Care Plans (EHCPs) continues. More than 500 requests were received in the year ending June 2022 - higher than in the same period in any of the last three years.

### **Other areas of note**

#### **Our people**

- 18 The National Child Measurement Programme 2020/21 shows a reduction in the percentage of children, across all age ranges, who are of a healthy weight in the national and regional data. This survey used a sampling methodology, and local authority level data is not available, however, this suggests that County Durham will likely see a reduction in children who are of a healthy weight.

## **Performance Indicators – Summary**

- 19 We are now transitioning into a post-pandemic world, but the impacts of COVID-19 can still be seen in our performance reporting. The last two financial years are not representative for many areas of performance and will be an unfair comparison due to pandemic impacts.
- 20 We have therefore, wherever possible, tried to make the comparison of current performance against pre-pandemic data.

## **Risk Management**

- 21 Effective risk management is a vital component of the council's agenda. The council's risk management process sits alongside our change programme and is incorporated into all significant change and improvement projects. The latest report can be found [here](#).

## **Appendix 1: Implications**

---

### **Legal Implications**

Not applicable.

### **Finance**

Latest performance information is being used to inform corporate, service and financial planning.

### **Consultation**

Not applicable.

### **Equality and Diversity / Public Sector Equality Duty**

Equality measures are monitored as part of the performance monitoring process.

### **Climate Change**

We have declared a climate change emergency and consider the implications of climate change in our reports and decision-making.

### **Human Rights**

Not applicable.

### **Crime and Disorder**

A number of performance indicators and key actions relating to crime and disorder are continually monitored in partnership with Durham Constabulary.

### **Staffing**

Performance against a number of relevant corporate health indicators has been included to monitor staffing issues.

### **Accommodation**

Not applicable.

### **Risk**

Reporting of significant risks and their interaction with performance is integrated into the quarterly performance management report.

### **Procurement**

Not applicable.

# Durham County Council Performance Management Report

## Quarter One, 2022/23

## **1.0 Our Economy: National, Regional & Local Picture**

### **Education**

- 1 Our exclusion rate has reduced by around 0.05% since the 18/19 academic year. Although 50 pupils were permanently excluded in 2020/21, the pandemic and sustained period of school closures will have played some part. Suspensions remain around 5%, higher than nationally but lower than the North East (7%).

## **2.0 Our People: National, Regional & Local Picture**

### **Children in Care**

- 2 Although more children are in care, the rate per 10,000 children aged 0-17 remains the third lowest in the North East.

### **Pupils attending good or outstanding schools**

- 3 A lower proportion of pupils in County Durham attend good or better schools in comparison to national and regional averages.

### **Special Educational Needs and Disability**

- 4 An additional 200 children and young people were given an Educational Health Care Plan during the last 12 months. This figure continues to rise year on year.

## **2.1 Council Activity: Going Well**

### **Stronger Families Programme**

- 5 The programme has turned around 581 families. 545 attained significant and sustained outcomes and 36 families achieved continuous employment.

## **2.2 Council Activity: Areas which require attention**

### **Children's Social Care**

- 6 Both children looked after and children in need<sup>2</sup> continue to show an increasing trend, and this, combined with more complex cases, has led to caseload pressures

<sup>2</sup> includes our children in care as well as children in need, children on a child protection plan and care leavers

for our social workers. Whilst we have recruited newly qualified social workers, who will take up their posts over the summer, we are also focusing on staff retention.

- 7 More children in care have led to increased placement pressures, which are reflected both regionally and nationally. We are focusing on increasing the capacity in our own in-house children's homes, recruiting more foster carers, and working with children and their families to prevent them entering care.

## **Education, Health and Care (EHCP) Plans**

- 8 High demand for EHCP plans continues. More than 500 requests were received over the latest 12 months, higher than the same period over the last three years.
- 9 We are struggling to recruit education psychologists as there is a national shortage, and this is impacting our ability to complete assessments within statutory timescales.

### **2.3 Council Activity: Other Areas to Note**

#### **Healthy weight in children**

- 10 Regional and National data from the National Child Measurement Programme suggest that we are likely to see a reduction in the percentage of children, across all age ranges, who are of a healthy weight.

## 3.0 Data Tables

### Key to Symbols

Performance against target		Performance against comparable groups		Direction of Travel	
	meeting or exceeding target		same or better than comparable group		higher than comparable period
	within 2% of target		worse than comparable group (within 2%)		static against comparable period
	more than 2% behind target		worse than comparable group (greater than 2%)		lower than comparable period

NB: oldest data in left column

### Types of indicators

There are two types of performance indicators throughout the report:

1. Key target indicators – targets are set as improvements can be measured regularly and can be actively influenced by the council and its partners; and
2. Key tracker indicators – performance is tracked but no targets are set as they are long-term and / or can only be partially influenced by the council and its partners.

### National Benchmarking

We compare our performance to all English authorities. The number of authorities varies according to the performance indicator and functions of councils, e.g., educational attainment is compared to county and unitary councils, however waste disposal is compared to district and unitary councils.

### North East Benchmarking

The North East figure is the average performance from the authorities within the North East region - County Durham, Darlington, Gateshead, Hartlepool, Middlesbrough, Newcastle upon Tyne, North Tyneside, Northumberland, Redcar and Cleveland, Stockton-on-Tees, South Tyneside, Sunderland.

More detail is available from the Strategy Team at [performance@durham.gov.uk](mailto:performance@durham.gov.uk)

## Our Economy
