

APPROACH TO WELLBEING FORMAL EVALUATION: TEESSIDE UNIVERSITY

County Durham
**Health &
Wellbeing**
Board

Better for everyone

County Durham's Principles of Wellbeing

- Adopted across the County Durham Partnership in 2019
- Evaluation by Teesside University undertaken in three stages
- Implementation Officer recruited in February 2022
- Final report completed in March 2022
- Recommendations presented to Steering Group in April 2022

Better for everyone

Evaluation Report

Summary of recommendations:

- Build on Community Champions model as an effective mechanism to embed A2WB
- Identify ways to build A2WB and SAF into working structures e.g. team meetings, development, evaluation
- Develop practical mechanisms that help people to engage with A2WB and link to CDT, co-production etc.
- Look at standardised, consistent and universal wellbeing measurement

Actions:

Link with Community Champions to embed the A2WB in job descriptors and resources

Promote the SAF and offer workshops to help support effective use; gather materials for case studies

Work with partners to embed the A2WB in structures e.g. Integrated Health and Social Care Engagement group

Create resources (including digital SAF) that are accessible on the CDP website; align with County Durham Together Partnership

Research and pilot ONS4 wellbeing measurement

Better for everyone

Case Study – Mental Wellbeing Alliance

- Enabling collaborative working
- Single point of access
- Joined up provision
- Making use of existing assets
- Including service users in decision making process

Better for everyone
