Although these plots, other than the Public Roads, they carry tracks, paths, streams, springs etc. They are still only defined as Rough Pasture.

So there were obviously errors made when defining the Land Use at the very least it should have had 'c' along side the Rough Pasture land use.

The approximate route coloured in red for the latter part of 'Chapel Pasture Public Bridle Road'. From the wall, top left across the pasture, down the slope to the gate in the boundary wall. This is where this Bridle Road meets the North Grain Public Bridle Road. This is better imagery than my photos for this part.
