Electoral division(s) affected:

Countywide

Purpose of the Report

- 1 This report sets out details of the proposed fees and charges for the Central Durham Crematorium for 2023/24.

Executive summary

- 2 In reviewing existing charges or setting new charges, inflationary pressures; the potential impact of competition in terms of price and quality; trends in demand; results of customer surveys; budget targets; cost structure implications; impact on other service areas; alternative more effective charging structures and proposals for targeted promotions etc need to be fully taken into consideration.
- 3 Members of the Joint Committee will recall that following Local Government Review in 2009 the fees and charges at the Central Durham Crematorium were harmonised with the charges at Mountsett Crematorium. The cremation fees and charges were increased in 2022/23 by £25 (3.4%).

Recommendation(s)

- 5 It is recommended that members of the Joint Committee note and approve the proposed fees and charges at Appendix 2 effective from 1 April 2023, which seeks to increase cremation charges by £30 (3.92%) per cremation from £765 to £795.
- 6 It is recommended that the proposed fees and charges are incorporated into the 2023/24 budget.

Fees and Charges 2023/24

- 7 The inflationary and cost pressures facing the crematorium, along with the views of the Bereavement Services Manager with regards to the local market, customer impact from any proposed increase and benchmarking data on the charges levied in other neighbouring facilities, plus the fact that the crematorium has recently undertaken major redevelopments are key factors in considering any increases for 2023/24.
- 8 The projected number of cremations in 2022/23 is 2,434 which will be 128 more than the 2,306 cremations delivered in 2021/22 and 234 more than the budgeted position of 2,200. For 2023/24 budget setting purposes it has been assumed there will be 2,200 cremations next year. This is a prudent forecast.
- 9 The current 2022/23 fees and charges for crematoria across the region, including the average charges levied is attached at Appendix 3, which indicates an average cremation fee of £872 (inclusive of medical referees fees and environmental surcharge where appropriate). Increasing the current charges by £30 will mean that the overall cremation fee levied for the Central Durham Crematorium in 2023/24 (inclusive of medical referee fees) will increase to £795, which is £77 below the average charges currently levied across the region. Once other crematoria apply their fee increases for next year, the proposed 2023/24 cremation fee of £795 will probably remain the lowest in comparison with all other neighbouring facilities in the region.
- 10 At the September 2022 meeting Members approved a £30 (3.92%) increase to the current crematoria fees and charges for 2023/24 as part of the Budget Strategy for the Joint Committee.
- 11 The table below indicates the extra income that could be received / budgeted with varying levels of assumptions on cremation numbers and fee increases. The £30 increase for 2,200 cremations is budgeted to generate an additional £66,000 income.

Risk

The sensitive pricing of services is essential to maintain the competitiveness and reputation of the Central Durham Crematorium in the current economic

climate. The proposed fees and charges next year will ensure that the charges remain competitive in comparison with neighbouring facilities and this, together with a prudent assumption in terms of the number of cremations undertaken next year, plus the strong reputation of the CDCJC should ensure risk is minimised with regards to the achievement of the income budgets. Charging information will be publicised in advance and communication carefully handled.
