Committee**

26 April 2023

Risk Register Update 2022/23 Review 2

Ordinary Decision

**Joint Report of Alan Patrickson, Corporate Director,
Neighbourhoods and Climate Change; and Paul Darby, Corporate
Director of Resources and Treasurer to the Joint Committee**

Electoral division affected:

Countywide

Purpose of the Report

- 1 To inform the Central Durham Crematorium Joint Committee of the outcome of the half-yearly risk review in March 2023.

Executive summary

- 2 A service risk register and a health and safety risk register are maintained in accordance with Durham County Council's methodology and approach to risk management.
- 3 Since the previous review one risk, relating to potential non-compliance with Covid advisory safety measures, has been downrated. There are no other changes to report.
- 4 The net evaluation of each risk remains within the risk appetite.

Recommendation

- 5 It is recommended that members of the Crematorium Joint Committee note the content of this report and the updated position.

Background

- 6 A service risk register and a health and safety risk register are maintained in accordance with Durham County Council's methodology and approach to risk management, further details of which are included in **appendices 2 and 3**.

Risk Review

- 7 The current service risk register is included in **appendix 4**.
- 8 *Non-compliance with Covid advisory safety measures by members of the public leading to a local outbreak and capacity issues in deaths management services* (appendix 4, risk 5).

It is over one year since Covid restrictions and measures were lifted and, in April 2022, the Government issued the Living with COVID-19 plan. Basic precautions, such as the provision of hand sanitiser, are being maintained and there are currently no issues of concern. The net likelihood of this risk has been downrated from unlikely to remote and it is anticipated that the risk will be closed in the next review in September 2023.

- 9 There are no other changes to report.
- 10 A profile of service risks is included in **appendix 5**.

Conclusion

- 11 The net evaluation of every risk is within the risk appetite (shaded area in appendix 5).

Appendix 2: How Central Durham Crematorium risks are managed

Two risk registers have been developed for Durham Crematorium, containing service and health and safety risks respectively. They are maintained in accordance with Durham County Council's methodology and approach to risk management. Regular reviews are undertaken to ensure that risk management continues to be embedded and that the risk registers are kept up to date, taking current issues into account.

Service Risk Register

The service risk register is maintained by the Bereavement Services Manager & Registrar (Countywide), supported by Durham County Council's Principal Risk and Governance Officer. Risk assessments are based on the impact on finance, service delivery and stakeholders if the risk materialises, and on the likelihood that the risk will occur over a given period, as shown in appendices 3A and 3B. This requires an evaluation of the gross risk and the net risk, which takes into account mitigating control measures. Formal reviews are undertaken twice a year and reported to the Central Durham Crematorium Joint Committee.

Health and Safety Risk Register

The health and safety risk register is maintained by the Bereavement Services Manager & Registrar (Countywide), supported by Durham County Council's Occupational Health and Safety Team. Risk assessments are based on the potential severity of injury and the likelihood of occurrence, as shown in the table below. This requires an evaluation of the net risk, which takes into account mitigating control measures. In line with Durham County Council's procedures, an in-depth review is undertaken every three years. A light-touch review is also undertaken twice a year. A single, overarching health and safety risk is included in the service risk register, which is reported to the Central Durham Crematorium Joint Committee twice a year.

HEALTH & SAFETY RISK ASSESSMENT CRITERIA		Likelihood (a full definition of each rating is set out in the detailed methodology)			
		1 Very Unlikely	2 Unlikely	3 Likely	4 Very Likely
Impact	4 Extreme Death or multiple deaths; substantial damage.	Low Risk	Medium Risk	High Risk	High Risk
	3 Severe Loss of limb or multiple injuries; significant damage.	Low Risk	Medium Risk	High Risk	High Risk
	2 Minor Three day or greater injury or illness; insignificant damage.	Insignificant	Low Risk	Medium Risk	Medium Risk
	1 Negligible Less than a three-day injury or illness; superficial damage.	Insignificant	Insignificant	Low Risk	Low Risk

Civil Emergencies

Durham County Council is jointly responsible for responding to civil emergencies (such as severe weather events, network power losses and flu epidemics) through the County Durham and Darlington Local Resilience Forum. An explanation of the arrangements for managing the risk of such events and a copy of the latest Community Risk Register can be found on the web page of the County Durham and Darlington Local Resilience Forum.

Appendix 3B: Strategic Risk Assessment Criteria – Likelihood Factors

Factor and Description		Expected Frequency
5	Highly Probable	<ul style="list-style-type: none"> • More than once a year • Something that is already occurring or is likely to be a regular occurrence throughout a one-year period • Inevitable i.e. the event is expected to occur in most circumstances • >80% chance of occurring
4	Probable	<ul style="list-style-type: none"> • Once a year • Something that has occurred in the last year or is likely to occur at least once throughout a one-year period. • Probable or where the conditions of the loss occur on a regular basis i.e. the event will probably occur in most circumstances • 61% to 80% chance of occurring
3	Possible	<ul style="list-style-type: none"> • Every 1-3 years • Likely only to happen at some point over the next 1 to 3 years. • Possible but responding to well understood situations i.e. the event might occur at some time • 31% to 60% chance of occurring
2	Unlikely	<ul style="list-style-type: none"> • Every 3-5 years • Likely only to happen at some point over the next 3 to 5 years or likely to continue to occur i.e. the event is not expected to occur • 11% to 30% chance of occurring
1	Remote	<ul style="list-style-type: none"> • Over 5 years • Rare activity or is unlikely based on current intelligence i.e. the event may only occur in exceptional circumstances • < 10% chance of occurring

Appendix 4: Service Risk Register for Central Durham Crematorium

This is a list of service risks, ranked in order of net risk evaluation, based on the strategic risk assessment criteria in appendices 3A and 3B. Where changes to the risk assessment have occurred during the last quarter, these are indicated in the last column.
