Audit progress

1. Audit progress

Purpose of this report

This report provides the November 2023 Audit and Finance Committee meeting with an update on progress in delivering our responsibilities as your external auditors. It updates members on the national delays in completing the 2021/22 and 2022/23 audit. It also includes, at Section 2, a summary of recent national reports and publications for your information. In Section 3, we highlight some of the work Mazars has been leading on to provide public sector insights and this may be of interest to Members.

2021/22 Audit

Members may recall from the last meeting that the one remaining issue in relation to completion of the 2021/22 audit was the whole of government accounts (WGA) return. Although we have completed our work on the return itself, we are still waiting for clearance from the National Audit Office (NAO) that they will not be selecting the Authority as a sampled component for additional work. NAO's timetable for the completion of WGA for 2021/22 is the end of March 2024. We therefore anticipate being able to issue our audit certificate closing the 2021/22 audit at about this time.

2022/23 Audit

We presented our Audit Completion Report on the financial statements in September 2023 and since then our focus has been to complete all outstanding work ready to sign our opinion at the end of November. However, there are two outstanding issues, both relating to pensions as set out below:

- We are awaiting for the pension fund assurance letter from the auditor of the Durham County Pension Fund which is Mazars. We expect to receive this before the end of November.
- The Government Actuarial Department (GAD) has recently been in discussions with police and fire bodies about providing an updated Actuary report because the initial reports did not make any allowance for known inflation from September 2022 to March 2023. We expect the change to be material to the firefighters pension scheme and the Authority has therefore requested a revised report. The report itself will not incur any additional fees but is unlikely to be received in time to sign the opinion before the end of November. However, we expect that it will be available in December when we will be able to complete our work.

We will report our findings to the January 2024 meeting of the Audit and Finance Committee when the revised accounts will be approved. We plan to take our draft Auditor's Annual Report 2022/23 including our commentary on value for money to the same meeting and will finalise this once the opinion on the financial statements has been signed.

When we have issued the 2022/23 audit opinion, we will also be able to report to the NAO on the 2022/23 WGA. However, once again we anticipate a delay before we can issue the audit certificate, as we wait for NAO clearance that they will not be selecting the Authority as a sampled component for additional work.

NATIONAL PUBLICATIONS

National Audit Office

1. Whole of Government Accounts 2020/21, 20 July 2023

Publication of the Whole of Government Accounts for 2020/21, along with a qualified audit certificate and report by the Comptroller and Auditor General.

The Whole of Government Accounts consolidates the accounts of central and local government and public corporations such as the Bank of England, to provide the most complete and accurate picture of the UK's public finances.

Whole of Government Accounts (WGA) consolidates the audited accounts of over 10,000 organisations across the UK public sector. WGA is based on International Financial Reporting Standards, the system of accounts used internationally by the private sector.

This is the twelfth year of publication of the WGA. The UK is among the most advanced countries in this regard and the WGA is a uniquely comprehensive product; as it is the only set of consolidated public sector accounts that includes both central government, local government and government owned corporations.

The WGA is independently audited by the National Audit Office providing greater confidence in the figures, and supports effective scrutiny by Parliament. This scrutiny is exercised by the Public Accounts Committee who examine the accounts each year.

In the event the Comptroller and Auditor General qualified the audit certificate and report on a number of points.

2. PSAA announces the number of audit opinions completed for the 2022/23 audits (10 October 2023)

At the publishing date of 30 September 2023, only 5 out of 467 local government bodies' 2022/23 audit opinions have been given. This adds to the 456 that are outstanding from previous years.

Local government bodies are required to publish accounts with an auditor's certificate or opinion by 30 September or to explain the reasons for non-publication. At the publishing date of 30 September 2023, only 5 out of 467 local government bodies' 2022/23 audit opinions have been given. This adds to the 456 that are outstanding from previous years.

The cumulative position of 918 delayed audit opinions emphasises how important it is that there is a successful conclusion to the intensive ongoing work to find a solution to the backlog, and to ensure that it does not recur. PSAA is making every effort to support this work in collaboration with fellow members of the Local Audit Liaison Committee.

Steve Freer, PSAA's Chair said,

'The scale of the backlog of local audit opinions is becoming more and more serious. It is now very clear that an extraordinary intervention of some sort is urgently required to put the system back on track. Hopefully, current work to develop a solution can be concluded quickly, enabling details of the planned solution to be announced and implemented as soon as possible.

An important strand of any solution must be to address the root causes of so many delayed opinions so that following its implementation the delivery of timely opinions is firmly and permanently re-established.'

4. Section 114s: where are we headed next? 16 August 2023

Rob Whiteman, CIPFA CEO assesses the latest position on s114 notices (where formal action needs to be taken to balance a Council's finances), what has been done to prevent further s114 notices, whether more will occur and what the sector should do. This originally appeared as an article in the Municipal Journal on 31 July 2023.

This is an assessment of a very topical subject given the increasing number of s114 notices in recent times.

The term 'Section 114' refers to this section of the Local Government Finance Act 1988, part (3) of which sets out the duty of the chief finance officer (CFO) to "make a report under this section if it appears to him that the expenditure of the authority incurred (including expenses it proposes to occur) in a financial year is likely to exceed the resources (including sums borrowed) available to it to meet that expenditure".

Issuing the notice under Section 114(3) immediately suspends all financial activity apart from that which is necessary to maintain statutory duties; it also initiates a 21-day period for full council to consider the report and agree urgent action to start to remedy the situation.

CIPFA's guidance states that the authority's external auditors and the Department for Levelling Up, Housing and Communities (DLUHC) should also be notified and 'can step in to provide advice and support'.

These cases tend to reflect situations of financial failure and / or financial collapse. All Members of authorities need to be alert to how their organisation is managing its financial risks and taking steps to avoid any form of financial distress.

The insights in this article may be of particular interest to Members.

Lee Rowley MP's letter to the Chair of the Levelling Up, Housing and Communities Committee, UK Parliament on Local Audit Delays – Cross-System Statement on Proposals to Clear the Backlog and Embed Timely Audits.

This paper sets out the detail of proposals to address to address audit delays and clear the backlog. It was provided by the Minister to the Chair of the Levelling Up, Housing and Communities Committee, after the Minister provided evidence to the Committee in Parliament at a meeting in June.

The paper sets out the issues in some detail. The item on the next page (page 21) provides a summary of the main issues from a recent Municipal Journal article on the subject.

6. Municipal Journal Article by a Local Government Minister on Rebuilding Audit, 30 October 2023

An article by Lee Rowley MP in Municipal Journal and the most up-to-date statement at the current time of proposals to address the backlog of local government audits.

Quotes from this article include:

“The number of outstanding local audits dating back to 2015-16 is now too high, and is likely to increase further without action.

To do that, we recognise there will be hard decisions. Our proposals include setting a series of statutory deadlines for account preparers and auditors to clear the backlog. I know the setting of ‘backstop’ dates may result in some qualifications and disclaimers of opinion in the short term.

As others have noted too, clearing the backlog can’t be our sole focus. The return to timely audits must be sustained as part of an effective system underpinned by proportionate financial reporting, auditing and regulatory requirements; we cannot resolve a backlog one day only to see it starting to build again the next.

So, the second big endeavour is to ensure future local authority accounting and audit activity strikes a balance between maintaining the highest standards of financial reporting and the fundamental, day to day purpose of audit – to provide financial information and general assurance which is useful for taxpayers and others. That is why when it comes to debates on issues such as the accounting requirements for infrastructure assets, we need to consider our approach carefully. In the meantime, the Department for Levelling Up, Housing and Communities will seek to extend the legislative changes made in this area last year while the Chartered Institute of Public Finance and Accountancy (CIPFA) explores longer-term changes to reporting requirements for non-investment assets and pension valuations.”

Recruitment crisis in the public sector

Insights from over 170 individuals across the UK public and social sector highlighted that the UK is on the cusp of a recruitment and retention crisis. Amid ongoing social and economic instability, how can we improve efforts to support our public sector workforce and effectively attract new talent?

Fiscal Pressure and inflation challenges

Over 300 individuals from across the UK public and social sector told us that the UK is at a critical juncture. Amid ongoing social and economic turmoil, decisive action is needed now to support those most in need.

Supporting vulnerable communities

Against a backdrop of political uncertainty, unprecedented strike action and the prevailing cost of living crisis – itself a consequence of the conflict in Ukraine among other factors – many of the UK's most vulnerable communities are at risk of becoming more marginalised and face more hardship.

A global public and social sector study (2023)

The public and social sector is in a time of transformation. Expectations of organisations in the sector are higher than ever while financial constraints and regulatory burdens are increasing.

To understand some of the challenges leaders in this sector face and the steps they are taking to tackle them, we surveyed more than 100 public sector executives in five countries.
