Annual Governance Statement

1. Scope of Responsibility

The Central Durham Crematorium Joint Committee is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. It also has a responsibility under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy efficiency and effectiveness. This Committee was established in 1955 by the Rural District Council of Durham and the Urban District Council Brandon and Byshottles (transferred to the City of Durham Council, 1983) and the urban District Council of Spennymoor (transferred to Spennymoor Town Council, 1983)

Following Local Government Reorganisation in 2009, as successor to the City of Durham Council, Durham County Council acts as the lead authority.

The Central Durham Crematorium Joint Committee is also responsible for putting in place proper arrangements for the governance of its affairs and for ensuring that there is a sound system of internal control which facilitates the effective exercise of its functions and which includes arrangements for the management of risk.

The Central Durham Crematorium Joint Committee has adopted a code of corporate governance consistent with the principles of the CIPFA / SOLACE Framework ‘Delivering Good Governance in Local Government’ and operates under the policies and strategies including Contract Procedure Rules, Financial Procedure Rules, Financial Regulations, developed, agreed and adopted by the Durham County Council, its lead authority.

This statement explains how the Central Durham Crematorium Joint Committee has complied with the code and also meets the requirements of Regulation 4(2) of the Accounts and Audit regulations 2011.

2. The Purpose of the Governance Framework

The Governance framework comprises the systems, processes, culture and values by which the Central Durham Crematorium Joint Committee directs and controls its activities through which it accounts to, engages with and leads the community. It enables the Committee to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and objectives; it can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Central Durham Crematorium Joint Committee’s aims and objectives, its policies and

procedures, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place at the Central Durham Crematorium Joint Committee for the year ended 31st March 2012 and up to the date of approval of the Small Bodies Annual Return and supporting Statement of Accounts.

3. The Governance Framework

The Governance Framework supports the Central Durham Crematorium Joint Committee in establishing, implementing and monitoring policies and objectives. The system of internal control refers to the system by which the Central Durham Crematorium Joint Committee directs and controls its operational functions and relates this to the community it serves. It is therefore the totality of the strategies and objectives of the joint committee and the management systems, procedures, and structures it has adopted, that together determine and control the way in which the Central Durham Crematorium Joint Committee manages its business, and sets about delivering its services to meet those objectives.

The system of internal control is based on a framework of regular management information, financial regulations, administrative procedures (including segregation of duties), management supervision, and a system of delegation and accountability. Development and maintenance of the system is undertaken by managers appointed by the joint committee to facilitate its effective and efficient operation by enabling it to respond appropriately to significant business, operational, financial, compliance and other risks to achieve its objectives. The Central Durham Crematorium Joint Committee's system of internal control reflects its control environment which encompasses its organisational structure.

In particular, the system includes control activities, information and communication processes and processes instigated by the Joint Committee and its lead authority for monitoring the continuing effectiveness of the system of internal control.

The key elements of the systems and processes that comprise the Joint Committee's governance arrangements include:

Defining and documenting the roles and responsibilities of the Central Durham Crematorium Joint Committee member and officer functions, with clear delegation arrangements and protocols for effective communication

The vision for the Central Durham Crematorium Joint Committee takes the following format:

- ◆ To provide a sensitive, respectful and valued service fitting for the bereaved and their families.

- ◆ To provide consistent high quality standards of maintenance in Durham Crematorium, working to maximise value for money.

- ◆ To ensure the proper respect of Durham Crematorium with fair Rules and Regulations, fully explained to all visitors.

During the year, the Central Durham Crematorium Joint Committee has undertaken a major redevelopment of the Crematorium including access improvements, replacement cremators and subsequent building works. These works are expected to be completed in July 2012.

Following such completion a full review and refresh of the current Service Asset Management Plan will be undertaken, with the future development needs of the facility being reported for consideration by the Joint Committee in September 2012. This will further demonstrate the delivery of the Joint Committee's vision by:

- ◆ Identifying the property needs of the service to enable it to deliver its vision
