Mountsett Crematorium Joint Committee

4 October 2013

Risk Register 2013/14

Joint Report of Terry Collins – Corporate Director: Neighbourhood Services; Don McLure – Corporate Director: Resources and Treasurer to the Joint Committee

Purpose of the Report

1. To provide an update on the current position with regards to the Risk Register of the Mountsett Crematorium Committee.

Background

2. A Risk Assessment report was presented to members at the January meeting which included a comprehensive risk register that identified all known risks of a Service and Operational nature, with all risks scored using the Durham County Council methodology approach to Risk Management. In approving the report, the Committee committed to regular monitoring and reporting of both strategic and operation risks.

Risk Assessment - September 2013

- 3. The Risk Register considered and approved by the Joint Committee in 31st January 2013 has been reviewed, reassessed and updated in accordance with the Durham County Council methodology/approach to Risk Management. This entails an assessment of both the gross and net risk from each area, the difference between the gross and net risk score being that the net risk result is after taking into account existing control measures.
- 4. In line with the previous report, two risk registers have been prepared, separately identifying Service and Operational risks.
- 5. Both sections of the Risk Register have been reviewed by the Risk Officer responsible for Neighbourhood Services and the Bereavement Services Manager. Net risk ratings have been agreed by consensus and actions to mitigate and/or tackle issues arising from the individual risks have been agreed for the forthcoming year.
- 6. The Service Risks (i.e. those that are key to the service achieving its strategic objectives and priorities for improvement, linked to service improvement plans and the budget setting cycle) have been plotted onto a risk matrix, based on Net Risk Scores. This is set out at Appendix 2. The risk matrix plots the risk to a grid based upon the assessment of likelihood and impact scores. The higher a risk is in the top right corner of the matrix the bigger a risk it is to the service.
- 7. Risk 4 "Sickness absence of staff" has been removed and the Crematorium Manager has now left Authority. Risk 12 "Pre-payment of bond premium is not sufficient to cover fees." has been removed as the project is not going forward.

- 8. Risk 10 "Loss of knowledge and ability to cover existing workload through staff loss" remains a significant risk due the inability to recruit a replacement following the departure of the Crematorium Manager.
- 9. As with Service Risks, the Operational Risks (i.e. those that are key to the operational areas of the service which relate to individual tasks carried out on a routine basis) have also been plotted onto a risk matrix and these are set out at Appendix 3.
- 10. There have been no changes to the remaining Operational Net Risk Scores following the review and all risks are considered to be at a tolerable level.
- 11. The emerging risk reported last quarter regarding the Local Authority becoming responsible for implementing the changes required under the reform of Health & Social Care bill regarding Death Registration, where each Local Authority will have to appoint someone to oversee these responsibilities, is still on the horizon. However, we are still awaiting clarification from the Government as to how these requirements are to be met.

Embedding Risk Management - Monitoring and Review

12. In order to ensure that risk management is embedded and that the risk register is kept up to date, regular reviews will continue to be carried out to ensure any new and emerging risks are identified, existing risks are removed if no longer appropriate and existing risks are reviewed taking into account current issues.

Conclusions

13. The original risk register has been revised and updated and rescored in accordance with Durham County Council criteria.

Recommendations

14. It is recommended that:

- Members of the Mountsett Joint Crematorium Committee note the content of this report and the updated position.
- The Risk Registers be kept up to date and reviewed by the Joint Committee on a half yearly basis.

Appendix 1: Implications

Finance

There are no financial implications associated with this report. Exposure to financial risk is integral to the gross and net risk assessments undertaken and included in the Risk Registers attached at Appendix 2 and 3.

Staffing

There are no staffing implications associated with this report.

Risk

There are no implications in this report

Equality and Diversity / Public Sector Equality Duty

There are no implications in this report

Accommodation

There are no implications in this report

Crime and Disorder

There are no implications in this report

Human Rights

None

Consultation

Officers of Gateshead Council were consulted on the contents of this report.

Procurement

None

Disability Issues

None

Legal Implications

None
