

Review of Children's Centres across County Durham

Examples of community venues which could be used to deliver Children's Centre services.

This document provides some examples of the venues which may be used in each area, if the proposal for new ways of working is approved by Cabinet in Spring 2015, after the consultation results have been analysed. It must be noted that this is not a guarantee of service delivery in these venues, however it will give an indication of the types of venues services *could* be delivered from. Actual venues used will need to be risk assessed and meet the needs of families. Schools and nurseries are not included on this list, however it is anticipated that we will be able to make use of some of these venues.
