**(iv) Licensing Act 2003 Policy Statement – Suggested Framework Hours: DCC Trading Standards (Weights and Measures) as a Responsible Authority**

My comments are made in my capacity as Chief Inspector of Weights and Measures for DCC as the Local Weights and Measures Authority.

When considering the Licensing Act 2003, the local weights and measures authority (Trading Standards) is primarily concerned with sale and supply of alcohol to those under 18s. Most investigations carried out by the service in this regard concern the off trade and generally evidence suggests that sales are made in the early to mid-evening i.e. 15.30 to 2000. As a consequence of this I do not feel it appropriate to suggest terminal hours for the off trade as any such timing would be too restrictive and would have an adverse effect on local businesses.

Whilst not wishing to see any timings imposed on off trade I would welcome to option or concept of introducing voluntary arrangements for off licences when there could be an agreement whereby off licences temporarily “suspend” their licensable activities or perhaps restrict the type and strength of alcohol that could be sold during these times when it has been found that there are high levels of crime and anti-social behaviour caused by underage drinking and these issues can be linked back directly to the off trade. Generally it is found that youths will attempt to access alcohol in the locality where they live and then congregate in more community type venues such as parks etc. however it has been found that youths will migrate to areas so any such agreements should be not restricted to the type of area as described in the framework

I appreciate that any such arrangement would have to be voluntary and could not form part of a framework/matrix but thought members could consider these thoughts when determining the policy.
